

2026 Academic Year Four-year Industry-Academia Collaboration Bachelor Degree Overseas Youth Vocational Training Program (OYVTP)

Prospectus

(Approved by OCAC document Qiao Sheng Zhuan Zi No. 1140502646 of October 2, 2025)

I. Application eligibility

- A. Those who meet the following qualifications may apply study on **the Four-year Industry-Academia Collaboration Bachelor Degree Overseas Youth Vocational Training Program (the Program)** in Taiwan in accordance with the provisions of this brochure to Taiwan overseas government agencies or the recommending units designated by the Overseas Community Affairs Council (the OCAC); after being reviewed by the OCAC and meeting the qualification requirements of overseas compatriot students, the unit entrusted by the OCAC will assist in handling **the admissions process for this Program (including examinations and pre-allocation)**, and applicants will be selected and admitted by each enrolling school.
- (1) Overseas compatriot students who were born overseas and have resided continuously to date, or have recently resided overseas continuously for more than 6 years, and have obtained a permanent or long-term residence permit in their place of residence. The calculation of the period of continuous residence overseas for the last 6 years is based on the calculation of the deadline for application in this prospectus as the calculation base date and backward calculation of 6 years. However, those who meet the requirements for continuous residence years specified in this prospectus until August 31, 2026 can also apply. However, they must sign an affidavit and the OCAC will check the period of residence as of the registration deadline on August 31, 2026. If the applicant does not meet the requirements for continuous residence years, admission and allocation eligibility will be revoked.

Note 1: For applicants from Myanmar, the period of continuous residence overseas should be calculated forward 6 years to November 30, 2025 (from December 1, 2019 to November 30, 2025); for applicants from other regions, the period of continuous residence overseas should be calculated forward 6 years to January 15, 2026 (from January 16, 2020 to January 15, 2026).

Note 2: "Overseas" refers to countries or regions outside the mainland, Hong Kong and Macau. So-called "continuous residence (or reside overseas continuously)" means "the period of stay in Taiwan shall not exceed 120 days in each calendar year (from January 1 to December 31), otherwise it will be regarded as an interruption of overseas residence." Continuous residence is based on the aforementioned 6 years. During the calculation period, whether you have stayed in Taiwan for more than 120 days in each calendar year (from January 1 to December 31) will be determined. However, in the year when the calculation period begins and ends, whether the stay in Taiwan exceeds 120 days for these two years will be determined.

Note 3: If an applicant meets one of the following circumstances, his/her continuous overseas stay will not be considered interrupted; his/her period of stay in the country will not be included in the calculation of the period of overseas residence (that is, the period of continuous overseas stay must be calculated forward). Please attach supporting documents when registering to facilitate review.

1. Attend non-degree Overseas Youth Vocational Training Program organized by the OCAC or special technical training program recognized by the central competent education administrative agency.
2. Participate in activities organized by the OCAC or deemed by it to be organized by government agencies, or study in Mandarin language study courses offered by Mandarin education institutions approved by the central educational administrative agency for overseas enrollment, and the total period of the activities or study is less than two years.
3. Exchange students whose total exchange period is less than two years.
4. Come to Taiwan for internship with permission from the central competent authority in charge of the relevant industry, and the total internship period is less than two years.
5. Return to Taiwan to do military service and has enlisted and served.
6. Unable to return to the place of residence due to war, natural disasters or large-scale epidemic.

7. Due to other reasons that cannot be attributed to the overseas compatriot student, they are unable to return to their place of residence and have supporting documents.

Note 4: Obtaining a permanent or long-term residence permit in the place of overseas residence can be determined by obtaining citizenship or permanent residence in the place of overseas residence, or holding a passport of the Republic of China with Overseas Compatriot Identity Endorsement.

- (2) If students who have been previously approved for allocation were unable to come to Taiwan due to unforeseen circumstances, they will not retain their admission qualifications. If they plan to enroll in this program in the fall of 2026, they must re-apply.
- (3) Those have been allocated to universities (including National Taiwan Normal University Academy of Preparatory Programs for Overseas Compatriot Students) by the Overseas Joint Admissions Committee, or have been independently recruited through domestic universities and colleges and are currently enrolled in school, have suspended their studies, or have applied for retention of admission qualifications are not allowed to re-apply for this program. This is not applicable to those who attended non-degree Overseas Youth Vocational Training Program before the 41st term or OCAC Training Programs for Overseas Compatriots (華裔青年來臺就學輔導暨技術研習班).
- (4) Overseas compatriot students who returned to Taiwan to study after receiving counseling but stayed for less than two years and dropped out of school or lost their student status for any reason may reapply to return to study only once. Please attach supporting documents when registering and submit with the application form. However, overseas students who have been expelled or lost student status for poor conduct or academic performance, violating laws or school rules in serious circumstances shall not apply for admission in accordance with this provision.
- (5) Applicants under 25-year-old (born after July 1, 2000), who meet the requirements of the " Standards for Recognition of Equivalent Educational Levels for University Admission " and have graduated from a local senior high school or above or have equivalent academic qualifications.
- (6) Applicants **holding academic certificates from Myanmar and unregistered Chinese High School graduation qualifications in northern Thailand**, and which have been verified by the unit accepting the application to be true, **must take the local subject test and meet the minimum admission standards decided by the OCAC in order to be eligible to apply**.
- (7) Applicants may fulfill one of the following four criteria to be eligible for application (not applicable to those taking Subject Test Questionnaire for Myanmar and Northern Thailand):
 1. Have TOCFL A2 or above.
 2. Graduation certificate or academic transcript showing at least two semesters of passing Mandarin language grades from one of the following institutions: Chinese primary schools, independent high schools, or national/national type secondary schools (SMK/SMJK) in Malaysia.
 3. Pass the written test (A1 level or above) administered by Taiwan overseas government agencies or the recommending units designated by the OCAC and holding proof of at least 240 hours of Mandarin study. The recognized study hours include:
 - a.) Overseas Chinese schools, local language school or Mandarin language center recognized by the OCAC.
 - b.) Local educational institutions (such as universities, high schools, and elementary schools) recognized by the local government.
 - c.) Domestic schools approved by the OCAC to hold this Program (physical or remote video teaching courses).
 - d.) Language Study Program for Compatriot Youth of the OCAC (physical or remote video teaching courses).
 - e.) Physical or remote video teaching courses from domestic educational institutions (such as Overseas Compatriot Culture and Education Foundation, Mandarin language teaching centers of various universities) recognized by the OCAC.
 4. Have TOCFL A1 and hold proof of at least 240 hours of Mandarin study. The recognized study hours are as stated above.

Note 1: Foreign school academic certificates should first be verified by an overseas Taiwan government agency or OCAC Culture Center or the recommending unit designated by the OCAC

Note 2: Those who have one of the following qualifications equivalent to dropping out from a domestic senior high school, or graduates from foreign schools of the same level whose graduation grade is equivalent to the second grade of a domestic senior high school, may apply for universities and colleges with equivalent academic qualifications:

1. Only failed to study the last year of the prescribed study period, suspended from school for any reason, dropped out of school, or re-studied for more than two years.
2. Completed the semester above the last year of the prescribed study period, suspended or dropped out for more than one year for some reason.
3. After completing the prescribed number of years, failed to graduate for some reason.
4. The aforementioned calculation of the number of years of suspension, withdrawal or re-study starts from the end of the last completed semester as shown on the transcript, certificate of study, transfer certificate or certificate of suspension of study to the registration deadline of the current year.

Note 3: Those who have not yet met the requirements for suspension of study, withdrawal, or repeat years of study as prescribed in the preceding paragraph for equivalent academic qualifications are not allowed to apply.

Note 4: For graduates from foreign schools of the same level whose graduation grade is equivalent to the second grade of a domestic senior high school, if they apply for bachelor's degree classes in various universities, each university will increase the credits required for graduation or extend the length of study.

Note 5: Those holding the local transcript equivalent to a senior high school, academic qualifications (ability) certificate, and documents certified by the local government education authority stating that they can apply for the local university, and initially reviewed by a unit entrusted by the OCAC to assist in the admissions process of this Program (including examination service and pre-allocation), and have been reviewed and approved by the OCAC at an allocation meeting, can apply for universities with equivalent academic qualifications. However, the university may increase the credits required for graduation or extend the years of study based on the student's study status.

(8) Preliminary interviews may be conducted by Taiwan overseas government agencies or the recommending units designated by the OCAC. Evaluation will consider the results of the interview, as well as Mandarin proficiency and academic performance, qualified applications will be forwarded to the OCAC for further review. Interview methods and schedules will be announced by the organizer.

B. Anyone who falls under any of the following circumstances shall not apply to return to Taiwan to study in accordance with the provisions of this prospectus. Those who violate the provisions will not be admitted; those who have already enrolled shall be ordered to withdraw from school and their student status shall be revoked.

- (1) Those who have applied for the loss of the nationality of the Republic of China and it has been approved and have not yet obtained the nationality of another country.
- (2) Holding forged or fraudulently used or altered certification documents or passports.

II. Application method

A. Application time:

- (1) Myanmar region: The deadline for receipt is from November 1, 2025 to November 30, 2025.
- (2) Other regions: The deadline for receipt is from November 1, 2025 to January 15, 2026.

◆ Any late registration or incomplete registration will not be accepted, and no application for extension of submission deadline will be allowed.

B. Forms for submission: Please first go to the registration website of this Program (website: <https://coopstud.stust.edu.tw/4year>) to log in your basic personal information, upload digital copies of the following documents and fill in your application, then print out each application form and prepare the following documents and then submit an application to overseas Taiwan

government agencies, OCAC Culture Centers or the recommending units designated by the OCAC to complete the registration process.

- (1) Checklist for students' submission information (please place this form on the first page of the application form, and bind the remaining submission forms in the order of items in this form; the format is shown in Appendix 1).
- (2) Application form in triplicate (each application form must be signed by the applicant and parents, and each application form must have a 2-inch frontal half-length photo with no hat attached; the format is as shown in Appendix 2).
- (3) Residence certificate of the place of residence of the overseas compatriot (photocopy of the identity card or passport of the place of residence or a copy of the passport of the Republic of China with the overseas resident identity endorsement and other documents; those who do not have a passport or hold a travel permit are not allowed to apply; those with a travel document with validity period of more than 3 years for Brunei are exempt from this restriction. Those who hold the identity of mainland residents, Hong Kong residents, Macao residents or holders of passports issued by the mainland are not allowed to apply).
- (4) Educational certificates:
 1. Graduation certificate (applicants with equivalent academic qualifications must attach a certificate of study). (Applicants who apply as fresh graduates during registration can first submit a certificate of enrollment in the current semester; however, they must obtain a graduation certificate (or a certificate of study with transcripts of previous years) before enrollment (in September 2026 at the latest) for review by school to which they are allocated, otherwise it will be deemed that the registration requirements are not met, and those who have been allocated will have their admission eligibility revoked).
 2. Original transcripts of the last three years of high school, and the location of the school and the length of schooling must be indicated. (Applicants who are graduating as fresh graduates at the time of registration are not required to attach transcripts for that semester if their grades for the current semester have not yet been obtained).
- (5) School department application form. (Please first go to the registration website of this Program to fill in your application and print out the school department application form. (School list is shown in Appendix 3).
- (6) Affidavit (Limited to those who meet the continuous residence period specified in this prospectus until August 31, 2026; the format is as shown in Appendix 4)
- (7) Documents proving Mandarin proficiency. (Please refer to the four options above. Not applicable to those taking Subject Test Questionnaire for Myanmar and Northern Thailand.)
- (8) Subject Test Questionnaire for Myanmar and Northern Thailand (**restricted to applicants holding academic certificates from Myanmar and those who have graduated from unregistered Chinese high schools in Northern Thailand**; the format is shown in Appendix 5). Applicants with academic qualifications **from other regions do not need to submit**.
- (9) **Myanmar academic qualification verification affidavit (only for those holding Myanmar school academic certificates that have not been verified by the Ministry of Foreign Affairs of Myanmar and Taiwan's representative office in Myanmar**; the format is shown in Appendix 6). **Applicants with academic qualifications from other regions do not need submit.**

◆ Things to note in Myanmar:

- (1) The Myanmar Subject Test is scheduled to take place on January 25, 2026 (Sunday) in Mandalay. The examination location, date and issuance of exam admission ticket matters will be notified separately by the application receiving unit. If the number of applicants exceeds the limit, an additional test center may be designated.).
Candidates must bring their exam admission tickets for the examination. If you require a replacement for your lost exam admission ticket, please visit the examination office on the day of the test to request reissue.
- (2) The Myanmar subject test time, subjects and score calculation methods are as follows:

Session	A	B	C
Time	08:30 10:00	10:30 12:00	13:30 15:00
Subject	Mandarin	English	Math
Score calculation method	1. Total test score. If there is an absence from the exam, the grade for that subject will be calculated as zero. 2. Those who are absent from all examination subjects will not be allocated		

- (3) The original high school graduation certificate and transcript for the third academic year of high school education from a Chinese school should also state the name in Chinese, English and Burmese, the date of birth, the Myanmar national (public) citizen identity card number and the card number of the identity card held (That is Naing, Ei or Pyu, etc.). Those who have recently graduated from high school and have not received their graduation certificate can first submit a certificate of enrollment for the current semester (which should also state their names in Chinese, English and Burmese, date of birth, Myanmar national (public) identity card number and the certificate they hold ID card type), but the official graduation certificate (academic certificate) must be obtained before the semester starts in September 2026 at the latest. Otherwise, it will be deemed that the registration qualifications are not met, and those who have been allocated will have their admission qualifications cancelled.
- (4) The new system Myanmar high school diploma (Grade 12) and the transcripts of the last three years of high school should be accompanied by English translations. If the previously issued academic certificate has only been verified and stamped by the recommending unit or Chinese school designated by the OCAC, you can still apply if it has not been verified by the Ministry of Foreign Affairs of Myanmar and Taiwan’s representative office in Myanmar, but you must sign an academic qualification verification affidavit (the format is in the attachment 6); at the latest, you must complete the Myanmar school academic qualification verification before applying for a visa to Taiwan and submit it directly to Taiwan’s representative office in Myanmar; otherwise, it will be deemed that the registration qualifications are not met, and those who have been allocated will have their original admission qualifications revoked.
- (5) A photocopy of the tenth-grade high school graduation certificate of the old Myanmar high school system (or other certification document that can prove the completion of the tenth grade of a Myanmar high school) and the original and English translation of the transcripts of the last three academic years, and attach the first- and second-year original grade transcript of a Myanmar regional university and its English translation. If the student did not complete the sophomore year or dropped out of the junior year in Myanmar, a relevant certificate proving that the student has not progressed to the senior year should be attached. If the previously issued academic certificate has only been verified and stamped by the recommending unit or school designated by the OCAC, you can still apply if it has not been verified by the Ministry of Foreign Affairs of Myanmar and our representative office in Myanmar, but you must sign an academic qualification verification affidavit(the format is in the attachment 6); at the latest, you must complete Myanmar school academic qualification verification before applying for a visa to Taiwan and submit it directly to our representative office in Myanmar. Otherwise, it will be deemed that the registration qualifications are not met, and those who have been allocated will have their original admission eligibility revoked.

◆ Things to note in Thailand:

- (1) Applicants in Thailand who do not have the nationality of the Republic of China must have Thai nationality.
- (2) Applicants who do not have a high school diploma from a Chinese high school in Northern Thailand must take a subject test. The Northern Thailand Subject Test is scheduled to be held in early to mid-April 2026. The test date (time), test location and exam admission ticket issuance matters will be notified separately by the unit accepting the application. Candidates should take

the examination with their admission ticket. If you have lost your admission ticket and need to apply for a reissue, please go to the examination office at the examination center to apply for a reissue on the day of the examination.

(3) The Northern Thailand subject test time, subjects and score calculation methods are as follows:

Item	Explanation
Exam subject	Mandarin, English, Math
Score calculation method	1. Total test score. If there is an absence from the exam, the grade for that subject will be calculated as zero. 2. Those who are absent from all examination subjects will not be allocated

◆ When items (3) and (4) of the above foreign language documents are replaced by photocopies they must be translated into Mandarin (English documents are exempt from translation). The photocopies and translated documents must be verified by an overseas Taiwan government agency or by an OCAC Culture Center or the recommending unit designated by the OCAC. All forms submitted will not be returned. As for official documents, they must still be presented to the school for review upon arrival in Taiwan.

All the afore-mentioned forms must be submitted in full when registering, and must be verified and sealed by an overseas Taiwan government agency, a Culture Center of the OCAC or the recommending unit designated by the OCAC. Documents that are not required by regulations do not need to be submitted. All forms filled out by the applicant must be filled out in traditional Chinese characters. Those whose application do not meet the requirements in the prospectus will not be allocated, and applicants may not request supplementary submission retroactive recognition or renewal for any reason.

If the documents are incomplete, incompletely filled out, or the photocopy is unclear, or the application has not been verified and signed by an overseas Taiwan government agency, a Culture Center, or the recommending unit designated by the OCAC, it will be handled in accordance with the regulations and no further notification will be given for supplementation and correction to improve the time effectiveness of overseas students coming to Taiwan to enroll. If any the documents submitted are found to be forged, used or altered, admission eligibility will be revoked; for those who have already registered, their student status will be revoked and no relevant academic certificate will be issued; if it is discovered after graduation, the school will revoke their graduation eligibility, and demand return of or cancel the degree certificate.

C. Things to note when filling in application form, filling in school department applications, and uploading your information:

- (1) Applicants should first go to the registration website of this Program (website: <https://coopstud.stust.edu.tw/4year>) to log in their basic personal information and fill in the application, then, print out various application forms (including application forms) and go to the application location to register. All details listed in the “application form” and “school department application form” must be filled in clearly one by one. When filling in your Mandarin and English name and date of birth, you must make sure it is consistent with what is stated on your identity document and graduation certificate. Your English address and email address must be printed.
- (2) If students with disabilities want to apply to study in Taiwan, they must fill in the type and degree of the disability accurately in the application form, first understand and evaluate whether each school department and internship institution can provide learning and internship aids and daily care measures according to different types and level of needs and use it as a reference for filling school applications to avoid not being able to attend school and complete the internship smoothly.
- (3) Applicants can fill in up to 52 school department applications in sequence on the application form. The number and order of filling in school department applications have a great relationship to allocation. It is recommended to make good use of the opportunity of 52 applications. Do not concentrate on applying for certain school departments, and it is not advisable to only fill in 1 or 2 applications. Once the registration is completed, it cannot be changed, so please be careful.

- (4) If any of the information filled in the application form is concealed or false, or violates the provisions of this prospectus, admission will not be granted; for those who have already enrolled, their student status will be revoked and no relevant academic certificate will be issued; if it is discovered after graduation, the student will not be admitted. The school will revoke the graduation qualification and demand return of or cancel the degree certificate.
 - (5) For the collection, processing and use of personal data of applicants, please refer to Appendix 1 of this prospectus Information on Collection, Processing and Utilization of Personal Data of Students Registered for the Overseas Youth Vocational Training Program (OYVTP).
- D. Postage and telecommunications fees paid to the unit that accepts the application are limited to US\$30 per person (subject to the OCAC's announcement), equivalent in the local currency. The unit that accepts the application may waive or reduce the fee at its discretion. However, if the fee is increased, it must be approved by the OCAC. The above fees are only used for postage and telecommunications charges for sending application forms and may not be used for other purposes. If there is any surplus, the overseas Taiwan government agency should pay the remaining balance directly to the national treasury.
 - E. After the recommending unit designated by the OCAC accepts the application and checks the endorsement, the application form should be sent to an overseas Taiwan government agency of for verification; the last batch of application forms should be sent to the OCAC within 3 working days from the application deadline. After acceptance and review, an overseas Taiwan government agency should send it by registered airmail or express delivery to the Department of Overseas Compatriot Students Affairs of the OCAC on the 15th floor, No. 5 Xuzhou Road, Taipei City, the Republic of China within 5 working days. If it is sent after the time limit or has incomplete documents, it will not be accepted and extension of submission cannot be applied for.

III. Allocation principle

- A. Applicants holding academic certificates from Myanmar and those who have graduated from unregistered Chinese senior high schools in northern Thailand should take the subject test, and their test scores must meet the minimum admission standards decided by the OCAC at an allocation meeting.
- B. After the applicant's application materials (including scores) are transferred to each school department application school and department for verification and ranking, the application will be processed based on the enrollment quota of each school and department, the minimum class size, the verification and ranking results of each school, and the application order of each student.
- C. The OCAC will hold an allocation meeting to confirm the admission list. If necessary, in order to increase students' chances of enrolling, a high allocation operation can be carried out.
- D. The minimum number of students in a class shall be determined in accordance with the "Instructions for Schools Enrolling Students for the Overseas Youth Vocational Training Program".
- E. Announcement of admission:
 - (1) The admission list is scheduled to be announced in June. Please go to the Program's website (<https://coopstud.stust.edu.tw/4year>) or each enrolling school to check the list.
 - (2) The "Admission Notice" will be printed by each school and sent to overseas Taiwan government agencies by letter from the OCAC for transfer to the student. If students admitted through distribution do not receive the "Admission Notice" before the end of August, please contact the admitted school directly for reissue.
 - (3) If you have any doubts about this admissions process, you should state the specific reasons in writing and submit supporting materials to the OCAC before August 31, 2026. The OCAC will handle it in accordance with the prospectus and relevant regulations, and within one month reply; if necessary, the relevant units may be asked to provide explanations. The OCAC will not handle unnamed complaints.

IV. Regulations relating to admission and coming to Taiwan

- A. School start date: University starts school in September. For details, please refer to the dates set in the admission notices of each school. All students who are allocated a scholarship must arrive in Taiwan before the start of the semester and go through the admission procedures with their admission notice. Any student who has not applied or has not been admitted after applying will not be eligible for admission.
- B. Those who have been approved and allocated but are unable to come to Taiwan to enroll as scheduled due to unforeseen circumstances must send the original admission notice to the school where they were admitted for cancellation and will not be allowed to retain their admission eligibility.
- C. Students coming to Taiwan to study should follow the following regulations:
- (1) For foreign passport holders, please present your passport (valid for more than 6 months), 2 2-inch color bust photos with white background from within 6 months, and visa application form (please go to the website of the Bureau of Consular Affairs of the Ministry of Foreign Affairs first (website: <https://www.boca.gov.tw>) Click on visa/online application form area/general application form, fill in each field in order, download, print and sign), admission notice, admission permit, recent health examination certificate issued within 3 months by the Ministry of Health and Welfare or a foreign qualified hospital recognized by an overseas Taiwan government agency in the country of residence (for details of examination items, please see the website of the Centers for Disease Control: <https://www.cdc.gov.tw/> Click "International Travel and Health"/Foreigner Health Management/Health Examination for Foreign Degree Students (including Mainland Students)/Residence or Settlement Health Examination Item List; the abbreviated URL is <https://gov.tw/sYT>) and other relevant supporting documents required by an overseas Taiwan government agency to apply for a residence visa (FC visa), and use the "Foreign and Overseas Chinese, Mainland China, Hong Kong and Macao, Nationals without registered household in the Taiwan Area Students Online Application System" to apply for a foreign residence permit within 30 days after entering Taiwan. The National Immigration Agency (NIA) service stations will no longer accept applications by counter visits. (If you have any questions when applying, please call the system customer service: +886-2-2796-7162 or the consultation service hotline for foreigners in Taiwan: +886-800-001-990). If there is no foreign hospital recognized by the Ministry of Health and Welfare in the place where the overseas compatriot lives, they can contact an overseas Taiwan government agency and follow the local visa procedures. When overseas compatriot students holding Thai passports apply for a visa at the representative office in Thailand and enter Taiwan's airports or ports due to allocation, they must submit proof of Thai citizenship. Applicants who originally held household registration in Mainland China or possessed a Mainland Chinese passport must, in order to comply with Article 3 of the "Act Governing Relations between the People of the Taiwan Area and the Mainland Area" and Article 7 of its Enforcement Rules, submit documentary proof of having resided abroad for more than 4 years as well as proof of cancellation of their Mainland household registration and passport. These documents must be verified by the Straits Exchange Foundation or authenticated by an overseas Taiwan government agency.
 - (2) As a national without household registration in Taiwan, you should prepare (1) application form (submit 1 photo, in accordance with the national identity card specifications) at the place of residence (2) proof of identity of the place of residence or place of residence (3) Taiwan passport or other documents that are sufficient to prove that you have Taiwan nationality (4) Police record certificate of the place of residence or place of residence (minors are exempt from the requirement if their place of residence has not been issued or will not be issued) (5) Health examination certificate issued by a qualified foreign hospital designated by the Ministry of Health and Welfare or recognized by an overseas Taiwan government agency in the country of residence in the last 3 months (for details of examination items, please see the website of the Centers for Disease Control Ministry of Health and Welfare: <https://www.cdc.gov.tw/> Click "International Travel and Health"/Foreigner Health Management/Health Examination for Foreign Degree Students (including Mainland Students)/Residence or Settlement Health Examination Item List; the abbreviated URL is <https://gov.tw/sYT>). Admission notice and other

relevant supporting documents. Apply to an overseas Taiwan government agency for transfer to the NIA for issue a single-entry permit and a copy of the Taiwan Residence Permit. (6) Students without household registration in Taiwan who hold a Taiwanese passport and a valid stay permit should apply online through the "Foreign and Overseas Chinese, Mainland China, Hong Kong and Macao, Nationals without registered household in the Taiwan Area Students Online Application System" before the stay period expires. They must upload their admission notice and proof of enrollment.

- (3) Those who have original household registration in Taiwan, have gone through the (exit) relocation registration, and have not lost the nationality of the Republic of China or the identity of a person of the Taiwan Area, they have entered the country for more than 3 months with a passport of the Republic of China or entry certification document, they should within 30 days, go to the household registration office at the place of residence to register move-in (entry) and apply for a national identity card at the same time. Documents required: 1. Passport of the Republic of China (or entry certification document), national identity card, seal (or signature). 2. 1 photo or digital photo taken within the last 2 years that meets specifications (National ID card photo specifications can be checked at the " Department of Household Registration, Ministry of the Interior" website: <https://www.ris.gov.tw/app/portal/187>, those who submit digital photos should go to the Department of Household Registration of the Ministry of the Interior website - Online Application Service - National Identity Card - National Identity Card Image Upload <https://www.ris.gov.tw/app/portal/765> to upload digital photos), and the household registration list of the place of moving. 3. If you are a single household, you should also provide proof of single household such as the house ownership certificate or the latest housing tax bill (a summary of migration registration documents can be obtained from the "Global Information Network of the Department of Household Registration of the Ministry of the Interior" website: <https://www.ris.gov.tw/documents/data/2/3/4/3508b6de-3168-44b6-8834-98c3ccc27212.pdf> download query).
- D. Those who choose either (1) passing the written test (A1 level or above) administered by Taiwan overseas government agencies or the recommending units designated by the OCAC and holding proof of at least 240 hours of Mandarin study; or (2) having TOCFL A1 and holding proof of at least 240 hours of Mandarin study, must pass TOCFL A2 or above before the end of the second semester of the first academic year (i.e., before August 15 of the following year after enrollment). Those who fail to meet this requirement shall be dismissed by the school, and all expenses shall be borne by the students.

V. Estimation of fees (all amounts in TWD)

- A. Subsidy part of the OCAC: To encourage overseas young people to return to Taiwan to study professional skills and learn skills, each student will be subsidized with part of the tuition fee per semester. The amount is subject to the annual budget of the OCAC, and will be handed over to the school where the program is held for overall program planning to support students in completing their studies.
- B. School fees: Detailed admission school prospectus specific provisions (Appendix 2).
- C. In accordance with the provisions of the National Health Insurance Act, overseas compatriot students who have stayed in Taiwan for 6 consecutive months or have left the country once for less than 30 days shall be eligible for the National Health Insurance Scheme from the date when their actual stay is 6 months after deducting the number of days they spent outside Taiwan. the amount of health insurance premiums payable shall be handled in accordance with relevant regulations. However, overseas compatriot students from poor backgrounds may obtain a Chinese or English certificate of hardship issued by an overseas Taiwan government agency or recommending unit, overseas compatriot school, overseas compatriot group, or other organization or unit (not an individual) before coming to Taiwan, and apply to the school where they attend; If they are eligible after upon review by the school, the OCAC will subsidize one-half of the deductible for national health insurance premiums. In addition, after arriving in Taiwan and before enrolling in National Health Insurance, you may participate in the Medical

Insurance for Overseas Compatriot Students in accordance with the operating regulations. Students must bear half of the premium themselves, and the OCAC will subsidize half of it.

VI. Other matters to note

- A. A man is of military service age from January 1 of the following year when he reaches the age of 18, and no longer eligible on December 31 of the year when he reaches the age of 36. (conscript). All men of military service age with the nationality of the Republic of China who have registered residence in Taiwan are obliged to perform military service during their years eligible to serve; regardless of whether their residence registration has moved abroad or they have nationality of another country, they must hold a passport of the Republic of China when entering and leaving Taiwan; overseas compatriot men eligible for military service who entered the country with foreign passports will still be counted as staying in Taiwan based on their entry and exit records. Those who entered the country with foreign passports without status as an overseas compatriot are still listed as eligible for military service despite having dual nationality; when they are drafted according to law, they are restricted from leaving the country until they fulfill their military service obligations. Males eligible for military service born between 1994 and 2004 are required to undergo 4 months of military training for standing military service; males born after 2005 are required to serve 1 year of active military service.
- B. Overseas compatriots who have existing or original household registration in Taiwan and have the status of overseas compatriot eligible for military service should apply for a deferment during schooling. After graduation or leaving school, if the reasons for deferment disappear, the relevant regulations on returned overseas compatriot military service shall apply. However, students who were born between 1994 and 2004 and are enrolled in colleges and universities may apply to the township (town, city, or district) office where they have their registered residence before November 15 of each year after enrolling in college according to their wishes to receive military training for standing military service during the summer vacation for two consecutive years, they. In addition, if you no longer have the status of an overseas compatriot during schooling, graduation or after leaving school, the general domestic regulations for males eligible for military service shall apply. For inquiries regarding military service, please contact the Department of Conscription Administration of the Ministry of the Interior (tel: +886-2-85013943, website: <https://dca.moi.gov.tw/>).
- C. Parents of overseas students under the age of 18 should designate a relative or friend in Taiwan as the guardian. Applicants are required to find a guardian in Taiwan (those who are related will be given priority, or those who can represent the parents and be able to exercise guardianship rights).
- D. After enrolling, students who are ordered to drop out or be expelled from school due to bad conduct or poor academic performance must return to their original place of residence at their own expense. In addition to guiding students to depart from Taiwan in accordance with regulations, schools must promptly register any changes in student status into the international student data management information system designated by the Ministry of Education. Students shall also be required to leave Taiwan as stipulated. Any school found to be in violation of these requirements will have such cases recorded as deficiencies in student recruitment operations, and its future subsidies and overseas compatriot student admission quotas will be reduced accordingly.
- E. After coming to Taiwan to enroll, all matters related to score examination, suspension of study, and transfer will be handled in accordance with relevant regulations. Students who have been allocated and enrolled and voluntarily transfer to other schools due to poor academic adaptability or personal interests should register themselves to take the transfer examination for the sophomore or junior year of a general university.
- F. Overseas compatriot students with a record of allocation are not allowed to transfer or advance to any level of cram school and further training schools (colleges), air universities, colleges and universities that provide return-to-education bachelor's degree classes, in-service master's degree classes, and other special courses that are only held at night and during regular holidays.

However, this does not apply to those who have obtained legal residence status in Taiwan other than for the purpose of studying. However, those who transfer or advance to such schools or course on their own will have their overseas compatriot status terminated. Anyone who violates the provisions of the preceding paragraph will have his or her transfer or entry to higher level student status revoked and no relevant academic certificate will be issued. If the violation is discovered after graduation, the school shall revoke his/her graduation qualification and recover or cancel his or her degree certificate.

- G. Holders of residence visas must apply for alien residence permits and extensions at the service station of the NIA at the place of residence after entering. Things to note when overseas students apply for an alien residence permit and extend their residence are as follows:
- (1) Those who apply for an alien residence permit for the first time:
 1. Overseas compatriot students who enter the country for the first time and have not registered: The notice of admission (admission notice) should be attached, and a residence permit with a validity period of 6 months will be issued first. After registration, a supplementary period of 6 months will be issued; the fee will be charged for 1 year validity.
 2. Overseas compatriot students who have registered when entering the country for the first time: must submit supporting documents such as the notice of admission, proof of enrollment or registered student ID card, and will be issued a residence permit with a one-year validity period; a fee for the one-year validity period will be charged.
 - (2) Those who extend their stay during the period of study: they must present their student ID card or proof of enrollment and will be issued an alien residence permit with 1-year validity period; a 1-year validity fee will be charged.
 - (3) Those who want to apply for an extension of residence after graduation: If necessary, after graduation, overseas compatriot students may attach graduation certificates and apply for an extension of residence for one year from the month of graduation (before the expiration of the residence period). If it is still necessary before the extension expires, you may apply for an extension once more, and the total extension period is up to 2 years.
- H. The online application system for foreign and expatriate national students without household registration in Mainland China, Hong Kong and Macao now allows students to apply for residence permits by themselves. Please make more use of it. The website is: <https://coa.immigration.gov.tw/coa-frontend/student/entry>.
- I. In line with the country's New Southbound Policy, the Centers for Disease Control of the Ministry of Health and Welfare commissioned National Taiwan University Hospital to establish the "New Southbound Personnel Health Service Center" to provide a health consultation channel for people traveling to and from the region. The contact information is as follows:
Center website: <https://www.newsouthhealth.org.tw>; the abbreviated URL is <https://is.gd/3fhOSe>
E-mail: newsouthhealth@gmail.com; Tel: +886-2-23123456#66607
- J. To ensure the care and safety of students, all first-year students in this Program must live in the school dormitory. They may seek out accommodation after their sophomore year, and the school should handle the matter in accordance with the "Guidelines on Off-Campus Housing Safety and Services for College and University Students" issued by the Ministry of Education.
- ◆ If the documents submitted are forged, used or altered, their admission qualifications will be revoked; those who have already registered will have their student status revoked, no relevant academic certificates will be issued, and they will have to return to their original place of residence at their own expense.
 - ◆ If an overseas compatriot student eligible for military service and with overseas compatriot status endorsement, graduates from a foreign senior high school or above, and then returns to the country to study at a school of the same grade or lower than the original grade, he does not comply with the "Conscription Regulations for Naturalized Aliens & Returning Overseas Chinese" Paragraph 2, Article on conditions for deferral of school fees.
 - ◆ Men of military service age who have the nationality of the Republic of China and have registered residence in Taiwan should enter and leave the country with a passport of the Republic

of China; if they enter the country with a foreign passport and are still subject to military conscription according to law, they should be restricted from leaving the country until they fulfill their military service obligations.

- ◆ If you do not register for school after arriving in Taiwan, or if you have suspended school, dropped out of school, or have graduated, you must return to your place of residence and are not allowed to apply for a visa in Taiwan for other reasons. Those who drop out for any reason must leave school within 10 days, complete exit procedures and return to their place of residence. You must provide your own travel expenses when you come to Taiwan and when your studies have expired or when you leave school for any reason and return to your place of residence.
 - ◆ During the period of studying in Taiwan, I am willing to pay fees on time according to regulations and bear all the fees I should pay.
 - ◆ Overseas compatriot students are not allowed to work illegally or engage in activities that are inconsistent with the permitted purpose while studying in Taiwan. Anyone who violates the law by engaging in activities inconsistent with the purpose of the visa, illegal work, or holding forged or altered documents, etc. will be prosecuted in accordance with the law.
- K. The English version is provided for reference only. The Chinese version shall prevail in case of any discrepancies between the English and Chinese versions. The detailed provisions of the admissions prospectus are determined and provided by each respective school. For any questions or clarifications, applicants are advised to contact the school directly.**

**OCAC Four-year Industry-Academia Collaboration Bachelor Degree
Overseas Youth Vocational Training Program (OYVTP)
Notice on the collection, processing and use of person registering student personal data**

In accordance with the "Personal Data Protection Act" (the Act), to ensure the protection of your personal data, privacy and rights, please read carefully the "Notice on the collection, processing and use of person registering student personal data" drawn up by the Overseas Community Affairs Council (OCAC) in accordance with Articles 8 and 9 of the Act. (if you are under 18 years old, please inform your legal representative or guardian of the following content).

A. Name of organization: OCAC, the unit entrusted by the OCAC to assist in handling the admissions process for this program (including examinations and pre- allocation), and each admissions school.

B. Purpose of collecting personal information:

- (1) Handling examinations related to the enrollment for the **Overseas Youth Vocational Training Program** (the Program) (134notes, including the public name list), providing academic results, test scores, enrollment, distribution, and certification of use of information and communication services (135), information (communication) and database management (136), student (student) data management (158), academic research (159) and other purposes necessary for enrollment or with the consent of registered students.
- (2) To provide accurate allocation of admissions to the program, the OCAC must conduct statistics and analysis on the collected test scores and grades. The statistical data or explanatory text of the analysis results shall be presented for use for allocation and internal research, and the OCAC shall announce statistical data and explanatory text based on need, but this will do not involve information about specific individuals.
- (3) The OCAC will collect follow-up data collection for relevant academic research, educational research, statistical research and analysis for subsequent tracking of allocation results.

C. Personal information collection method

- (1) Obtained directly through personal information filled in in writing or for online registration or when individually uploading information to the department for review. After you register, the system will retain the personal information you provide for the purpose of conducting qualification reviews, allocation exams, and allocation and admission-related operations.
- (2) In order to confirm that your status as an overseas compatriot student meets the requirements of the "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan," part of your personal information will be retrieved from the NIA from your entry and exit records. The qualification review will be conducted by the OCAC, the Overseas Joint Admissions Committee, and the recruiting schools.
- (3) To complete the registration and submission process, your application form must be sent to the application acceptance unit in accordance with the regulations (such as: the overseas offices of the Republic of China, Culture Centers of the OCAC, the annual regional recommending units of the OCAC, etc.). Registration is completed upon delivery.
- (4) When you receive allocation and admission, your personal information will be transferred by the OCAC to the participating universities.

D. Categories of data collected

Directly collected data includes that for identifying the individual (C001 note), For identification in government documents (C003), Personal description (C011), Immigration situation (C033), leisure activities and interests (C035) School record (C051), Qualifications or skills (C052), Participant record (C057). Content includes: Chinese and English name, gender, ID number, date of birth, passport number, education information, contact number, address, email address, parents' Chinese and English names, examination number, etc., all are required fields. Test scores and grades are determined based on the score calculation method you choose.

E. Personal Data Processing and Utilization

- (1) Period of use of personal data: apart from the personal data storage period from the date of your registration to the date of taking the test, the period required to complete the above collection purposes is the period of use.
 - (2) Regions where personal data is used: Taiwan (including Penghu, Kinmen, Matsu and other regions), various overseas offices of the Republic of China, OCAC Culture Centers, the OCAC's annual regional recommending unit, the region of processing and use with the authorization of candidates and the location of the unit where the results are extracted or verified.
 - (3) Subjects of personal data use: In addition to the OCAC, it also includes relevant cooperative units that assist in completing the above collection purposes, including overseas agencies of the Republic of China, the Ministry of Education, the OCAC (including Culture Centers), and the OCAC's annual regional recommending units, the NIA, universities and colleges of the Republic of China, the Overseas Joint Admissions Committee, and academic research institutions (units) authorized by this association.
 - (4) Personal data use method: Notifications of test assignments, test scores, allocation results and related information of this program are provided to relevant cooperative units for test assignments, admissions, allocation, registration, inspection and other operations, candidate (or guardian) contact, necessary disclosure for the credibility of the examination and academic research and other necessary methods to help achieve the above collection purposes.
- F. If you fail to provide true, correct, and complete personal information, it will result in inability to register, inability to contact in emergencies, or inability to deliver the admission notice, etc., which will affect your rights to participate in enrollment, follow-up examinations and admission.
 - G. You may inquire about or request to read in accordance with the provisions of the Act during the period of data use; request to make a copy; request to supplement or correct; request to stop collection, processing or use; request to delete. You may exercise the above rights by contacting the OCAC in writing, fax, telephone, etc. The contact information for you to exercise relevant rights and contact us is: Tel: +886-2-23272788; Fax: +886-2-23566377; Email: ocacsg@ocac.gov.tw.
 - H. Please confirm that the personal information you provide is true and correct; if it is untrue or needs to be changed, please immediately submit the relevant supporting documents to the OCAC for correction.
 - I. The OCAC may provide personal information or related information to relevant competent authorities or judicial authorities in accordance with legal provisions or requirements of competent authorities or judicial authorities in accordance with the law.
 - J. If you request the OCAC to stop collecting, processing or using your personal information, or request to delete your personal information, the OCAC must also cancel your application form for coming to Taiwan, admission notice, etc. If you are already studying in Taiwan, your student status will be cancelled. If your request hinders the performance of our duties or the completion of the above collection purposes, or causes the OCAC to violate laws or requirements of competent authorities, the OCAC may continue to collect, process, use or retain personal information.

Note: Specific purposes and category codes of personal data of the Personal Data Protection Act promulgated by the Ministry of Justice

Affidavit

To: OCAC

Applicant_____ [Name], a foreign student from_____ [Country], hereby applies for the 2026 Academic Year Four-year Industry-Academia Collaboration Bachelor Degree Overseas Youth Vocational Training Program (OYVTP). I am willing to comply with the following regulations:

If, at the time of application, I do not yet meet the prerequisites requirements outlined in the "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan," specifically the provision in Article 2 regarding "having been living overseas for six or more consecutive years," I hereby agree that I must meet the qualifications for overseas compatriot student status as defined in Article 2 and Article 3 of the "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan" by August 31, 2026. Otherwise, my admission and allocation eligibility will be revoked by OCAC.

Sincerely,

Written by:

Myanmar Education Affidavit

To: OCAC

The applicant _____(name) is an overseas compatriot student from Myanmar. He/she is applying to come to Taiwan to study in the Four-year Industry-Academia Collaboration Bachelor Degree Overseas Youth Vocational Training Program (OYVTP) in the 2026 Academic Year. Because the Myanmar school education certificate has not been verified by Myanmar's Ministry of Foreign Affairs and Taiwan's representative office in Myanmar at the time of application, I agree that I must complete Myanmar school education verification before applying for a visa to come to Taiwan, otherwise my original admission and allocation eligibility will be revoked.

Sincerely,

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	CTBC University of Technology
Program	Department of Semiconductor Engineering (Equipment maintenance and information application)
Program Description	<p>The core goal of the department is to cultivate skilled professionals that meet the needs of the "semiconductor smart manufacturing industry." We combine theoretical foundations, practical training, and cross-domain innovation capabilities to establish a complete talent development system. The teaching policy is as follows:</p> <ol style="list-style-type: none"> 1. Strengthen basic knowledge and professional capabilities: The program focuses on the foundation of basic subjects such as electrical engineering and information technology, and takes semiconductor processing, equipment engineering, testing technology, smart manufacturing and automated control as its core professional areas, cultivating students' ability to possess both theoretical and applied knowledge. 2. Introducing smart manufacturing and AI applications: In response to the trend of digital transformation in the industry, technologies such as artificial intelligence, big data, the Internet of Things, machine learning, and smart sensing are incorporated into the curriculum to promote cross-domain learning of "AI+semiconductors" and cultivate students' application capabilities in smart manufacturing, predictive maintenance, and yield improvement. 3. Emphasize practical training and industrial chain connection: We collaborate with science parks and industries to establish industry-university collaboration laboratories and internship bases, introducing industry equipment and process cases so that students can become familiar with real-world manufacturing environments and technical requirements while still in school, thus bridging the gap between learning and application. 4. Cultivate cross-domain integration and problem-solving capabilities: Students are encouraged to participate in cross-disciplinary teamwork, integrate collaborative engineering with sustainable development concepts, enhance their problem analysis, system integration and innovative problem-solving abilities, and respond to the complex and ever-changing challenges of the semiconductor industry chain. 5. Focus on international perspective and professional ethics: We provide a variety of international exchange opportunities to cultivate students' cross-cultural communication and global competitiveness. We also emphasize professional ethics, safety standards, and sustainable responsibility, so that students can become engineering professionals with both professional qualities and a sense of social responsibility.
Graduate Career Development	The Department of Semiconductor Engineering cultivates diverse professionals needed for the semiconductor smart manufacturing industry, including R&D engineers, process engineers, equipment engineers, test engineers, quality control engineers, and system integration engineers. These professionals play diverse roles within the semiconductor smart manufacturing industry chain, requiring specialized knowledge and skills in all aspects of product and equipment development, maintenance, and application.
Mandarin courses (online or on-campus courses)	1. First semester of the first year: 8 credits and 8 hours of "Chinese Reading (1)", "Chinese Listening (1)", "Chinese Conversation (1)", and "Chinese Writing (1)", as well as 2 credits and 2 hours of "Chinese Language Proficiency Test Counseling (1)", focus on the cultivation of basic listening and speaking skills and elementary reading and writing skills, and assist students in obtaining the A1 Chinese language certificate in

	<p>their first year of college.</p> <p>2.Second semester of the first year: 8 credits and 8 hours of "Chinese Reading (2)", "Chinese Listening (2)", "Chinese Conversation (2)", and "Chinese Writing (2)", as well as 2 credits and 2 hours of "Chinese Language Proficiency Test Counseling (2)", focus on improving students' test-taking ability and language application skills, and assist students in obtaining the A2 Chinese language certificate by the end of their first year.</p> <p>3.First semester of the second year: 2 credits and 2 hours of "Workplace Ethics" and "Taiwanese History and Culture" are arranged to strengthen workplace communication and practical application skills.</p> <p>4.Second semester of the second year: "Chinese Society and Life" is offered for 2 credits and 2 hours to enhance students' understanding of Chinese society and advanced writing skills.</p>

Internship	1. Off-campus internships are conducted from the second year through the fourth year., four days a week, with internship hours of about 20 hours per week. 2. Internship allowance and benefits: ■ Allowance: The internship allowance is calculated according to the Basic Wage stipulated in the Labor Standards Act, on an hourly basis. The minimum wage in 2025 is TWD 190 per hour. If calculated monthly, the minimum compensation for fulfilling the statutory maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits: (Different benefits are provided depending on each internship company’s policy.) 3. Internship institutions:1. Tong Ying Motor Co.,Ltd 2. Everest Textile Co., Ltd.		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. Off-campus internships are conducted from the second year through the fourth year. With the exception of the winter and summer vacations, students’ total working hours shall not exceed 20 hours per week.		
Employment Counseling	1.The school's job placement channels and career counseling seminars. 2.The talent retention mechanisms of internship organizations.		
Further Education After Graduation	1. Graduates of this program may participate in the entrance examinations for master's programs in Semiconductor Engineering and other related departments in Electrical and Computer Science/Engineering at various universities in accordance with relevant regulations. For example, the Master’s Program in Semiconductor Engineering, the Master’s Program in Electrical Engineering, and the Master’s Program in Computer Science and Information Engineering.		
Scholarships and Financial Aids	1. The OCAC provides the following grants and subsidies: ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). ● Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. 2. Scholarship and subsidies provided by the University: ■Accommodation subsidy: Subsidy for accommodation fees from the 1st semester		

to the 8th semester (i.e., the 1st academic year to the 4th academic year).

**Tuition and Fees
(TWD)**

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC and school grant)	14,950	10,000	2,400	0 (Does not include water, electricity, road fees and deposit, winter and summer vacations are charged separately)	27,350
1 st year Second semester (The amount after deducting OCAC and school grant)	14,950	10,000	6,756	0 (Does not include water, electricity, road fees and deposit, winter and summer vacations are charged separately)	31,706
2 nd year (Amount per semester) (The amount after deducting OCAC and school grant)	14,950	10,000	6,756	0 (Does not include water, electricity, road fees and deposit, winter and summer vacations are charged separately)	31,706
3 rd to 4 th year (Amount per semester) (The Amount after deducting school grant)	34,950	10,000	6,756	0 (Does not include water, electricity, road fees and deposit, winter and summer vacations are charged separately)	51,706

*Note:

1. Tuition and miscellaneous fees: Tuition and miscellaneous fees must be listed separately. Charges are set according to government-approved standards under the Regulations for Tuition and Miscellaneous Fees of Colleges and Universities. (Tuition and miscellaneous fee subsidies of the school have been deducted)

2. Other fees:

■ Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month. Students who have proof of economic hardship (or financial difficulty document) only pay 50 % of the insurance premiums.

□ Books : TWD per semester

□ Teaching materials : TWD per semester

□ Laboratory : TWD per semester

■ Computer usage : TWD900 per semester

■ Internet usage : TWD150 per semester

■ Group insurance : TWD750 per semester

3. Accommodation fee:

(1) During semester:

● TWD 0 for a 4-person room.

● Air conditioning fees: TWD 5,000 per semester

	<ul style="list-style-type: none"> ● Deposit: TWD <u>3,000</u> per semester ● Dormitory internet: TWD <u>760</u> per semester (Deducted the school subsidy) <p>(2) During winter and summer vacations:</p> <ul style="list-style-type: none"> ● TWD <u>7,500</u> for a 4-person room. ● Air conditioning fees: TWD <u>2,500</u> per semester ● Deposit: TWD <u>3,000</u> per semester ● Dormitory internet: TWD <u>0</u> per semester <p>4. Living expenses (estimated) : TWD <u>18,000</u> per month.</p> <p>5. Additional charge:</p> <p>(1) Certificate examination fees are charged based on actual fees.</p> <p>(2) Medical check-up fee: TWD <u>1,000</u> .</p> <p>(3) Alien Resident Certificate (ARC): TWD <u>500</u> /per year(Limited to those holding a residence visa, based on the fees approved by the government.)</p> <p>(4) Working permit: TWD <u>100</u> /per time(Based on the fees approved by the government.)</p>

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	CTBC University of Technology
Program	Department of Mechanical Engineering (Traditional Manufacturing Industry)
Program Description	<p>This special program primarily targets overseas young students from Southeast Asia who have graduated from high school and wish to pursue further education in Taiwan. The goal is to cultivate professional technical talents in industrial production and manufacturing that meet the needs of enterprises. Therefore, the curriculum of this program is designed with a focus on traditional processing techniques, integrating industry demands and emphasizing the alignment of academic learning with practical application.</p> <p>In addition, the program incorporates off-campus internships at partner companies to enhance students' hands-on experience, aiming to develop professionals who possess both academic knowledge and practical skills required by these enterprises. To achieve the goal of employment upon graduation, the curriculum is centered around practical courses. During the internship period, students' salaries, benefits, and rights are protected by formal contracts. Participation in the internship allows students to seamlessly transition into employment, while simultaneously earning both work experience and academic credits.</p>
Graduate Career Development	Process Engineer 、 Equipment Engineer 、 Mechanical Design Engineer 、 Manufacturing Engineer
Mandarin courses (online or on-campus courses)	<p>1.First Year – First Semester Courses offered include "Chinese Communication and Expression (1)" (6 credits, 6 hours) and "Chinese Reading and Writing (1)" (4 credits, 4 hours). These courses focus on developing students' basic listening and speaking skills, as well as introductory reading and writing abilities.</p> <p>2.First Year – Second Semester The curriculum includes "Chinese Communication and Expression (2)" (4 credits, 4 hours) and "Chinese Reading and Writing (2)" (4 credits, 4 hours). Additionally, two specialized courses are provided: "Chinese Language Proficiency Test Preparation" and "Enhanced Test Coaching", each offering 2 credits and 2 hours. These are designed to improve students' test-taking skills and language application abilities, helping them obtain the A2 Chinese Language Certificate by the end of the second semester.</p> <p>3.Second Year – First Semester Courses include "Chinese Communication and Expression (3)" (2 credits, 2 hours) and "Chinese Expression Practice" (2 credits, 2 hours), aimed at strengthening oral communication and practical language application skills.</p> <p>4.Second Year – Second Semester The course "Chinese Reading and Writing (3)" (2 credits, 2 hours) is offered to enhance students' reading comprehension and advanced writing abilities.</p>

<p style="text-align: center;">Professional and Technical Training Courses (including internship subjects)</p>	<p><u>General Courses Required</u> 1.Chinese Communication and Expression (1)(2)(3) 2.Chinese Reading and Writing (1)(2)(3) 3.Chinese Language Proficiency Test Preparation 4.Creative Thinking and Training</p> <p><u>Elective</u> 1.Enhanced Chinese Proficiency Test Coaching 2.Chinese Expression Practice</p>	<p><u>Professional Courses Required</u> 1.Introduction to Industrial Technology 2.Introduction to Traditional 3.Manufacturing Processes 4.Mechanical Manufacturing Mechanism Theory 5.Programming</p> <p><u>Elective</u> 1.Engineering Mechanics 2.Engineering Drawing 3.Calculus 4.Dynamics 5.Mechanics of Materials 6.Windows Software Applications 7.Semiconductor Manufacturing Processes 8.Mechanical Design 9.Mechanical Properties of Materials 10.Quality Control 11.Practical Mold Design 12.Practical Mold Flow Analysis 13.Introduction to Sustainable Development</p>	<p><u>Internship and practical Courses Required</u> 1.Machining Practice (1)(2)(3) 2.Computer-Aided Drafting (CAD) 3.Pneumatics and Hydraulics with Practice 4.Programmable Logic Controller (PLC) Practice 5.CNC Machine Tools and Practice 6.Precision Measurement and Practice 7.Computer-Aided Manufacturing (CAM) 8.Precision Machining Practice 9.Enterprise Internship (1)(2)(3)</p> <p><u>Elective</u> 1.Computer-Aided 3D Drafting 2Automatic Control Practice Pneumatic Sequential Control 3.and Practice Mechanical Materials 4.Experiment 5.Industrial Image Inspection and Practice 6.Computer Monitoring Applications and Practice 7.Multi-Axis CNC Machining 8.Robotics Applications and Practice 9.Mechatronics Integration Practice 10.Enterprise Internship (4)(5)(6)</p>
<p style="text-align: center;">Internship</p>	<p>Off-Campus Internship Program</p> <p>1.Internship Period Off-campus internships are conducted from the second year through the fourth year. Students are expected to complete approximately 26 hours per week during the internship period.</p> <p>2.Internship Allowance ■ Internship stipends are calculated based on the Basic Wage Standards under Taiwan’s Labor Standards Act. In 2025, the minimum hourly wage is NT\$190. ■ Welfare: (Manufacturers provide special holiday bonuses or gifts and other benefits)</p> <p>3.Internship Companies Partner companies for the internship program include: KUANG TAI Metal Industrial Co.,Ltd. 、 C.T.I. TRAFFIC INDUSTRIES CO., LTD. 、 SUNNY ENVIRONMENTAL CONSULTANTS, LTD. 、 TAIWAN SAN TON IND. CO.,</p>		

	LTD.																		
Work-study During Semester	Outside of the internship curriculum, students who obtain a valid work permit in Taiwan are allowed to engage in part-time work during the academic semester for up to 20 hours per week. During winter and summer breaks, there is no hourly limit on part-time work.																		
Employment Counseling	<p>1.Internship Matching Events Each semester, the school organizes internship matching sessions, inviting partner companies to conduct on-campus interviews and consultations. These events help students secure internship opportunities. Additionally, internship-related seminars are held to provide further guidance.</p> <p>2.On-Site Mentorship and Support After students begin their internships, the school assigns faculty mentors to visit the companies. These mentors meet with both company supervisors and students to address any issues encountered during the internship and provide ongoing support.</p> <p>3.Performance Evaluation and Employment Opportunities Companies evaluate students based on their internship performance. Those who demonstrate outstanding capabilities may be offered full-time positions upon completion of the internship.</p>																		
Further Education After Graduation	Graduates of this program are eligible to apply for entrance examinations to master's programs in mechanical engineering or related fields at various universities in accordance with relevant regulations. For example, students may pursue admission to Master's Programs in Mechanical Engineering Departments.																		
Scholarships and Financial Aids	<p>1.OCAC.R.O.C(TAIWAN)</p> <ul style="list-style-type: none"> ● Each student receives NT\$20,000 per semester for the first and second academic years.(For national universities, the subsidy is based on actual tuition fees, up to a maximum of NT\$20,000 per semester.) ● Academic Excellence Scholarship: Students who meet academic performance standards after enrollment may be awarded NT\$6,000 per academic year, based on merit. ● Overseas Insurance Subsidy: A subsidy of NT\$600 for six months is provided before students are enrolled in Taiwan's National Health Insurance. ● National Health Insurance Subsidy: For financially disadvantaged students, half of the monthly self-paid portion of the health insurance premium is subsidized.(NT\$413 per month) ● Work-Study and Learning Assistance Grants: The school arranges part-time work or learning activities. Based on participation, students may receive up to NT\$2,500 per month. ● Emergency Relief Assistance: Support is provided on a case-by-case basis for students facing urgent or unexpected difficulties. <p>2.Support Provided by the School</p> <ul style="list-style-type: none"> ■ Accommodation subsidy: Accommodation subsidy for the 1st to 8th semesters (i.e. the 1st to 4th academic years).

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program (OYVTP)
Admission Prospectus for the 2026 Academic Year**

School	China University of Technology		
Program	Department of Tourism and Leisure Management		
Program Description	<p>This program is designed to cultivate intermediate-level management and professional technical talents in the tourism and leisure industry as its educational goal. It establishes the content and constructs the fundamental competency indicators that technology university graduates should possess. To achieve the goal of “employment upon graduation, the curriculum is structured around two major modules: “Dining Accommodation Management" and "Leisure Tourism Management." During the internship period, students' rights and obligations, including salary and benefits, are protected by formal contracts. By participating in internship courses, students are able to gain early exposure to the workplace, ensuring a smooth transition to employment while simultaneously earning both work seniority and academic credits.</p>		
Graduate Career Development	Hotel Front Desk Receptionist, Housekeeper, Room Supervisor, Chef, Restaurant Manager, Waiter/Waitress		
Mandarin courses (on-campus courses)	<ol style="list-style-type: none"> In the first semester of freshman year, students will take "Practical Chinese" (0 credit, 4 hours), "Chinese Listening and Lecture Practice (I)" (0 credit, 4 hours), and "Chinese Reading and Comprehension (I)" (0 credit, 4 hours), for a total of 12 hours. In the second semester of the sophomore year, the courses "Chinese Listening and Lecture Practice (II)" are 0 credits and 4 hours, and "Chinese Reading and Comprehension (II)" are 0 credits and 4 hours, for a total of 0 credits and 8 hours. Help students pass the TOCFL A2 level test or above by the end of the second semester of their freshman year.

<p>Scholarships and Financial Aids</p>	<ol style="list-style-type: none"> 1. Subsidies and Scholarships Provided by the OCAC: <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted <u>TWD 20,000</u> per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of <u>TWD 20,000</u>) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded <u>TWD 6,000</u> per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of <u>TWD 600</u> will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is <u>TWD 413</u>). ● Work-study subsidy and economic hardship scholarship: <u>TWD 2,500</u> per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. 2. Subsidies and Scholarships Provided by the University: <ul style="list-style-type: none"> ■ Book Scholarship : <ol style="list-style-type: none"> 1、Students must achieve a semester academic score and conduct score of 80 or above. Among those meeting both criteria, priority for the award will be given to students with higher academic scores for the semester. 2、The number of awards is allocated proportionally based on the number of students in each class. Eligible students who pass the review will each receive a scholarship of <u>TWD 2,000</u> along with a certificate of recognition. ■ Scholarships : From the second to the fourth academic year, students may apply for conditional university scholarships each semester in accordance with the relevant regulations. For details, please refer to the <i>Directions Governing International Student</i> 												

Scholarships at China University of Technology.

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	16,240	4,393	3,940	10,500 (No utilities, internet, or deposit included. Summer and winter breaks charged separately)	35,073
1 st year Second semester (The amount after deducting OCAC grant)	16,240	4,393	8,296	10,500 (No utilities, internet, or deposit included. Summer and winter breaks charged separately)	39,429
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	16,240	8,785	8,296	10,500 (No utilities, internet, or deposit included. Summer and winter breaks charged separately)	43,821
3 rd to 4 th year (Amount per semester)	36,240	8,785	8,296	10,500 (No utilities, internet, or deposit included. Summer and winter breaks charged separately)	63,821

Tuition and Fees (TWD)

*Note:

(1) The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees.

(2) Other fees:

- Overseas compatriot student medical insurance premiums TWD 600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD 826 per month. Students who have proof of economic hardship (or financial difficulty document) only pay 50 % of the insurance premiums.
- Books : TWD 2,000 per semester (Fees are charged based on the actual cost of textbooks purchased by the student.)
- Computer usage : TWD 810 per semester
- Internet usage : TWD 200 per semester
- Group insurance : TWD 330 per semester

(3) Accommodation fee:

1) During semester:

- TWD 10,500 for a 4-person room.
- Air conditioning fees: TWD 1,500 per semester
- Deposit: TWD 1,000 per semester
- Dormitory internet: TWD 1,000 per semester

2) During winter and summer vacations:

- TWD 2,500 per person per month
- Air conditioning fees: TWD 1,500 per semester
- Deposit: TWD 1,500

2. Living expenses (estimated) : TWD 8,000 per month

3. Additional charge:

	<p>(1) Certificate examination fees are charged based on actual fees (2) Medical check-up fee: <u>TWD 600</u> (3) Alien Resident Certificate (ARC): <u>TWD 500</u> per year (According to government-approved rates) (4) Working permit: <u>TWD 100</u> per semester (According to government-approved rates)</p>

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	China University of Science and Technology		
Program	Department of Electrical and Information Engineering		
Program Description	Aiming to cultivate talents in the field of information communication and electrical network engineering with expertise in IoT technology and electromechanical integration, this program collaborates with businesses to provide practical training for students in the establishment of information communication and electrical network engineering. The goal is to nurture high-quality professionals in this field for domestic companies and to serve as a backbone for these companies in developing overseas markets, thereby enhancing their international competitiveness.		
Graduate Career Development	Mechatronics engineer, Semiconductor equipment engineer, IoT application engineer, Power electronics engineer		
Mandarin courses (online or on-campus courses)	In response to the language proficiency requirements for students' learning and communication with faculty, in addition to the professional courses covering knowledge and skills needed in the electrical and information industry, students in this program also undertake general education courses with a focus on Mandarin learning, which are enhanced by the on-campus Chinese Language Center. These courses include Elementary Chinese (I) and (II), Elementary Chinese Conversation (I) and (II), Advanced Chinese (I) and (II), and Advanced Chinese Conversation (I) and (II).		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u></p> <ol style="list-style-type: none"> 1.Elementary Chinese (I) 2.Elementary Chinese (II) 3.Elementary Chinese Conversation (I) 4.Elementary Chinese Conversation (II) 5.Everyday English(I) 6.Everyday English(II) 7.Practical English (I) 8.Practical English (II) 9.Advanced Chinese (I) 10.Advanced Chinese (II) 11.Advanced Chinese Conversation (I) 12.Advanced Chinese Conversation (I) (II) 	<p><u>Professional Courses Required</u></p> <ol style="list-style-type: none"> 1.Workplace Ethics 2.Basic Electricity 3.Elementary Mathematics 4.Labor Safety Education 5.Intoducion o green energy 6.Rooms distribution and electrical installation technology 7.Industrial power distribution and project estimate 8. Power electronics 9. Practical project management in engineering 10 Mechatronics application and programmable control 11Power system and power quality <p><u>Elective</u></p> <ol style="list-style-type: none"> 1.Introduction to Computers 2.Digital logic design 3.Basic mathematics 4.Engineering mathematics (1)(2) 5.Physics 	<p><u>Internship and practical Courses Required</u></p> <ol style="list-style-type: none"> 1.Revit computer graphics 2.AUTOCAD engineering drawing (1)(2) 3.Power electronics laboratory 4.Industry Practice (1)(2)(3) <p><u>Elective</u></p> <ol style="list-style-type: none"> 1.Circuits laboratory (1)(2) 2.Computer programming 3.Digital logic design practice 4.Electronics laboratory (1)(2) 5.Assembly language 6.Electric machinery laboratory 7.Smartphone programming design 8.Industry Practice (4)(5)(6) 9.Communication system laboratory 10.FPGA systems design and practice 11.Application technology of internet of hings 12.Integrated circuit layout design practices

Internship	<p>1.Off-campus internships are conducted from second to fourth, with approximately 4 internship days per week. The maximum internship hours are up to 32 hours per week.</p> <p>2.Internship allowance and benefits:</p> <ul style="list-style-type: none"> •Allowance: The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by monthly. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. •Benefits : 1.Year-end bonus (distributed in accordance with the company’s annual operating results and individual performance appraisal) 2.Bonuses and gift boxes for the Dragon Boat Festival and the Mid-Autumn Festival. <p>3.Institution: LINK TRUST Engineering Co., Ltd., Takewin International Co., Ltd., SHENGCHENG Mechatronic Engineering Co., Ltd..</p>		
Work-study During Semester	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students’ total working hours shall not exceed 20 hours per week.</p>		
Employment Counseling	<p>1.Before graduation, the school arranges activities for program students such as job fairs, career seminars, and on-campus recruitment events.</p>		

	2. Internship organizations give priority in employment to students whose performance during the internship is deemed satisfactory.																					
<p style="text-align: center;">Further Education After Graduation</p>	<p>1. After completing their studies and obtaining a bachelor's degree, students may pursue further education to earn a master's degree, such as in Electrical Engineering, Electronic Engineering, Mechatronics Engineering, Automation Engineering, Semiconductor Engineering, and related fields.</p> <p>2. Overseas dual-degree programs or partner universities include: Mississippi State University (USA), Minnesota State University (USA), University of California, Monterey Bay (USA), University of Pittsburgh (USA), British Columbia Institute of Technology (Canada), University of South Australia (Australia), and Osaka International University (Japan), among others.</p>																					
<p style="text-align: center;">Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). ● Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. <p>2. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Central Taiwan University of Science and Technology		
Program	Department of Safety Health and Environmental Engineering		
Program Description	<p>This program, guided by the global trend toward net-zero carbon emissions and aligned with national policies promoting sustainable industrial development, focuses on environmental protection, occupational safety and health, and fire safety. It cultivates technical and management professionals with a comprehensive theoretical and practical understanding of net-zero sustainability, environmental engineering, occupational safety and health, and fire engineering. Certification and certification training is offered each semester to enhance employability, while a full-year internship is offered in the senior year to enhance employment readiness and facilitate seamless transition to employment. Salary, benefits, and labor rights and obligations during internships are fully protected by formal contracts.</p>		
Graduate Career Development	<p>Environmental Engineer, Environmental Safety Engineer, Occupational Safety and Health Manager (OSH Manager), Occupational Safety Engineer, Carbon Manager, Sustainability Manager, Fire Engineer.</p>		
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> The Chinese language curriculum consists of 16 credits of compulsory courses, taught over four semesters. In the first semester of the freshman year, Chinese Language Course I (4 credits) and Applied Chinese Language Course I (2 credits) are offered. In the second semester of the second year, Chinese Language Course II (4 credits) and Applied Chinese Language Course II (2 credits) are offered, aiming to help students pass the Chinese Language A2 level. Furthermore, Advanced Chinese Language Course I (2 credits) and Advanced Chinese Language Course II (2 credits) are offered in the first and second semesters of the second year, respectively, to further help students pass the Chinese Language B1 level. The Chinese Language Center offers consultation hours with Chinese language teachers and provides local students with study partners to assist with academic and social adjustment.

<p>Internship</p>	<ol style="list-style-type: none"> 1. Specialty Internship (I): During the first semester of the senior year, students may intern off-campus for 16 weeks, five days a week for a total of 640 hours. The employer must provide an internship stipend (which complies with the minimum wage and relevant insurance under the Labor Standards Act). 2. Specialty Internship (II): During the second semester of the senior year, students may intern off-campus for 14 weeks, five days a week for a total of 560 hours. The employer must provide an internship stipend (which complies with the minimum wage and relevant insurance under the Labor Standards Act). 3. Internship Stipend and Benefits <ul style="list-style-type: none"> ■ Internship Stipend: The stipend ranges from NT\$28,590 to NT\$38,600 per month. Accommodation will be provided free of charge or at an employee-discounted rate for interns coming from distant areas. ■ Benefits: According to the regulations of the internship organization. 4. Institutions: Dacin Construction Co., Ltd., Ruiju Construction Co., Ltd., Te Chang Construction Co., Ltd., Chung Yuang Electrical Consulting Co., Ltd., Wei Zheng Construction Co., Ltd., Jla Shin Consulting Co., Ltd., Kong Chou Consulting Co., Ltd. 		
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
<p>Employment</p>	<ol style="list-style-type: none"> 1. University-affiliated job matching channels and career counseling seminars: 		

<p>Counseling</p>	<ol style="list-style-type: none"> (1) Seven job recruitment seminars will be held in the second semester of the junior year. Each company will explain to students the content of the full-semester practical internship during the senior year, the mechanism for transitioning to full-time employment after completing the internship, the qualifications required for internships and subsequent full-time employment, employee salary and benefits, career prospects, and corporate culture. (2) Students will apply to the department office for interested companies, which will arrange interviews. After the interviews, the three parties (company, university, and student) will sign an internship contract and begin the internship according to the contract. (3) During the internship, department faculty will visit the interns at least once on-site and provide online support and counseling at any time. (4) Before the end of the internship, the department will inquire with the company whether the intern will be offered a full-time position and confirm that the salary and benefits offered by the full-time position are better than those of the intern. If the student agrees to stay, the company will match the student. (5) In the second semester of the senior year, job matching meetings will be held for students who did not participate in the internship or whose internship did not lead to a full-time position. <p>2. Talent Retention Mechanism for Internship Institutions:</p> <ol style="list-style-type: none"> (1) Internship institutions offer internship positions to the Department on the premise of seamless transition to full-time employment upon graduation. During the internship, industry mentors will be assigned to students based on their professional expertise to provide timely guidance on developing professional skills in the internship setting. (2) Internship institutions will evaluate students' performance in various areas of the internship, including attendance, learning attitude, work ethics, professional growth, and completion of work, as a basis for determining whether to retain them or transfer them to full-time employment.
<p>Further Education After Graduation</p>	<ol style="list-style-type: none"> 1. Graduates of this program can take master's entrance exams at various universities in accordance with relevant regulations, such as for the Department of Safety and Health Environmental Engineering Master's Program, the Occupational Safety and Health Master's Program, the Environmental Engineering Master's Program, the Environmental Engineering and Science Master's Program, and the Environmental Engineering and Management Master's Program, in accordance with relevant regulations. 2. This program does not have any overseas sister universities.
<p>Scholarships and Financial Aids</p>	<ol style="list-style-type: none"> 1. Grants and Subsidies Provided by the OCAC: <ul style="list-style-type: none"> ● Tuition: Each student will receive a subsidy of TWD 20,000 per semester for the first and second academic years. The amount will be directly deducted from the tuition bill. ● Merit Scholarship: Students who meet the required academic standards after enrollment may receive TWD 6,000 per academic year, awarded based on performance. ● Overseas Student Insurance: A subsidy of TWD 600 for six months (before joining Taiwan's National Health Insurance upon arrival). ● National Health Insurance: For financially disadvantaged students, half of the self-paid portion of the health insurance fee will be subsidized (TWD 413 per month). ● Work-Study and Learning Assistance Grant: The university will arrange work-study or learning activities. A subsidy of TWD 2,500 per month per student will be provided depending on participation.

- **Emergency Assistance and Relief:** Support will be provided on a case-by-case basis.
2. **Scholarships and Subsidies Provided by the University**
- **Academic Excellence Award**
- Award Amounts: TWD 1,500, TWD 2,500, and TWD 3,500 (one recipient for each award).
 - Eligibility: Students must achieve an academic average of at least 80 and a conduct grade of at least 82, and must qualify for the award ranking. In cases where students have the same academic average, priority will be given to the one with a higher average in department-designated professional courses. If the professional course averages are also the same, the department will make the final decision based on overall merit. Only one student will be awarded for each ranking.
- **Overseas Chinese Youth Vocational Training Program Scholarship**
- Award Amount: TWD 5,000
 - Eligibility: Available to second-, third-, and fourth-year students of this program whose academic performance in the previous semester ranks within the top 10% of the class and who have no disciplinary records. The scholarship will be directly deducted from the tuition and miscellaneous fees payment bill.

**Tuition and Fees
(TWD)**

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1st Year – First Semester (after deducting OCAC grant)	17,910	13,730	5,620-7,620	9,700 – 11,500 (Including deposit and utilities; air-conditioning fees and winter/summer vacation fees are charged separately.)	46,960-50,760
1st Year – Second Semester (after deducting OCAC grant)	17,910	13,730	9,976-11,976	9,700 – 11,500 (Including deposit and utilities; air-conditioning fees and winter/summer vacation fees are charged separately.)	51,316-55,316

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Central Taiwan University of Science and Technology		
Program	Department of Gerontological Health Care		
Program Description	<p>Founded on a strong foundation in medical and nursing sciences, our university is committed to providing comprehensive services in the field of long-term care. In response to the global aging trend, national long-term care policy developments, and the urgent demand for skilled professionals, this program is dedicated to cultivating experts capable of delivering holistic care for older adults. Guided by the philosophy of “learning by doing and doing by learning,” we prepare students with the professional competencies needed to meet the diverse needs of long-term care settings.</p>		
Graduate Career Development	Care Attendants, health promotion instructors, home care service supervisors, and other professionals in the senior health care industry.		
Mandarin courses (online or on-campus courses)	<p>1.The Overseas Community Affairs Council offers free Mandarin learning courses through online distance education.</p> <p>2.The university provides on-campus Mandarin tutoring courses at fixed times for enrolled students.</p> <p>(1) In both the first and second semesters, courses are planned for 4 credits (4 hours per week) covering [Elementary Mandarin] and [Applied Mandarin], with content adjusted according to students’ proficiency levels to ensure appropriate learning. Courses include Chinese Language (I), Applied Chinese (I), Chinese Language (II), and Applied Chinese (II).</p> <p>(2) The university’s Mandarin Language Center offers consultation hours with Mandarin instructors and pairs students with local learning partners to support their academic progress and daily life adaptation.</p>

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Yuanpei University of Medical Technology		
Program	Department of Gerontological Health Care (Long-term Care Industry and Gerontological Health Care)		
Program Description	<p>The Department is committed to cultivating professionals in geriatric health and care services with solid theoretical and practical knowledge, along with empathy and professional dedication. Centered on health management, the program emphasizes two major areas: Healthy Aging and Care and Well-being. Students learn health promotion, wellness and leisure planning, and senior service industry management, as well as geriatric care, welfare technology, and barrier-free environment planning. The curriculum integrates medical, humanistic, and information literacy, with experiential training in coursework and daily practice to foster empathy and service skills. Graduates are prepared to design and manage services that promote the health, well-being, and quality of life of older adults.</p>		
Graduate Career Development	<ul style="list-style-type: none"> ● Care attendants or case managers in long-term care facilities, nursing homes, and hospitals. ● Home care attendants or home care supervisors in home service organizations. ● Staff members in social welfare institutions. ● Engage in the wellness and health promotion field as health promotion managers or business specialists. 		
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> 1. The Chinese Language curriculum includes four required courses, each with 2 credits and 2 hours per week, totaling 8 credits and 8 hours. These courses are offered sequentially from the first to the third semester, and include Chinese (I), Chinese Reading and Expression, Chinese (II), and Chinese (III). The course content will be adjusted according to students' proficiency levels, providing suitable Chinese language learning opportunities. 2. The Chinese Language Center provides consultation hours with Chinese language instructors and offers tutoring services. In addition, local student partners are arranged to assist with both academic learning and daily life adaptation. 		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u></p> <ol style="list-style-type: none"> 1. Mandarin (I) 2. English (I) 3. (OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Tainan University of Technology		
Program	Department of Food and Beverage Services-		
Program Description	The curriculum of this program centers on two core pillars: “Culinary Arts and Design Development” and “Food & Beverage Management and Service.” It integrates practical skills with theoretical foundations while incorporating diverse elements such as culture, design, health, and creativity, aiming to cultivate talents who possess both professional expertise and interdisciplinary thinking. The courses emphasize the development of students’ communication skills, problem-solving abilities, and teamwork, with a focus on humanistic care and an international perspective as the core of education. Through diverse industry internship opportunities, students’ professional practical abilities are strengthened, comprehensively enhancing their employability and future development potential.		
Graduate Career Development	Food and beverage management professionals, product design and preparation specialists, culinary knowledge and skills trainers, and self-employed entrepreneurs.		
Mandarin courses (online or on-campus courses)	1. In the first and second academic years, the program offers Chinese (I), Chinese (II), Chinese (III), and Chinese (IV), each worth 4 credits and held 4 hours per week. 2. Chinese language consultation hours are provided, and local students are assigned as learning partners to assist international students in adapting to academic and daily life.		
Professional and Technical Training Courses (including internship subjects)	<p style="text-align: center;"><u>General Courses</u></p> <ol style="list-style-type: none"> 1. Chinese (I) 2. Chinese (II) 3. Chinese (III) 4. Chinese (IV) 5. Physical Education (I) 6. Physical Education (II) 7. Internship	<p>1. Off-Campus Internship: Internships are conducted from the third to the fourth academic years, five days per week, with approximately 40 hours per week.</p> <p>2. Internship Stipend and Benefits:</p> <ul style="list-style-type: none"> ■ Stipend: The internship stipend varies according to each company's policy but will not be lower than the basic wage stipulated by the Ministry of Labor, ranging approximately from TWD28,590 to TWD 35,000. ■ Benefits: Relevant benefits or measures will follow the regulations of the respective internship organization. <p>3. Internship Organizations: Tainan Evergreen Laurel Hotel, Tainan Xi Rong Xuan Hotel, Tainan Liuying Jianshanpi Resort, Din Tai Fung Snack Co., Xiangbin Catering Group, Doufu Catering Group.</p>		
Work-study During Semester	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
Employment Counseling	<p>1. The university has dedicated staff for the career development of international students. Through career assessments, job fairs, alumni experience sharing, employment seminars, and company visits, international students are assisted in obtaining information on further studies and employment, thereby strengthening career development and future planning.</p> <p>2. Talent Retention in Internship Organizations: Interns who demonstrate outstanding performance, as evaluated by supervisors, may be offered employment after graduation.</p>		
Further Education After Graduation	<p>1. Graduates of this program can take master's entrance exams at various universities in accordance with relevant regulations, such as for the Graduate Institute the Graduate Institute of Food Culture Innovation, the Institute of Tourism and Hospitality Management, the Institute of Food Science and Technology.</p>		
Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) 		

- Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Every award recipient will be awarded TWD 6,000 per person per academic year.
 - Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - Emergency Aid: Provided on a case-by-case basis.
- 2. Scholarship and subsidies provided by the University:**
- Scholarship for Newly Admitted Students: Newly admitted first-year students will be awarded a scholarship of TWD 25,000 (disbursed over two semesters: TWD 15,000 in the first semester and TWD 10,000 in the second semester).
 - Outstanding Academic Performance Scholarship: Starting from the second academic year (excluding students taking extended courses). Students with a conduct score of 80 or above in the previous semester and whose academic performance ranks in the top 20% of the class will receive TWD 10,000. Students with a conduct score of 85 or above and whose academic performance ranks in the top 10% of the class will receive TWD 25,000. Students with a conduct score of 90 or above and whose academic performance ranks in the top 5% of the class will receive TWD 50,000.
 - Mandarin Proficiency Test Rewards:
 - Passing TOCFL Level B1: TWD 1,500
 - Passing TOCFL Level B2: TWD 3,000
 - Passing TOCFL Level C1: TWD 6,000
 - Passing TOCFL Level C2: TWD 10,000

**Tuition and Fees
(TWD)**

I.School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant and the school grant.)	4,810	8,380	1,700	10,500-11,500 (water and electricity bill not included, neither the guarantee fees. except summer and winter vacation)	25,390-26,390
1 st year Second semester (The amount after deducting OCAC grant and the school grant.)	9,810	8,380	6,056	10,500-11,500 (water and electricity bill not included, neither the guarantee fees. except summer and winter vacation)	34,746-35,746
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	19,810	8,380	6,056	10,500-11,500 (water and electricity bill not included, neither the guarantee fees. except summer and winter vacation)	44,746-45,746
3 rd to 4 th year (Amount per semester)	39,810	10,512	5,406	10,500-11,500 (water and electricity bill not included, neither the guarantee fees. except summer	66,228-67,228

				and winter vacation)	
--	--	--	--	----------------------	--

Tuition and Miscellaneous Fees: Tuition and miscellaneous fees should be budgeted separately and must not be combined.

*Note:

1. The standards for tuition and miscellaneous fees are based on the ‘Regulations for ‘Tuition and Miscellaneous Fees of Colleges and Universities’, calculated according to the government-approved fees

2. Other fees:

■ Overseas compatriot student medical insurance premiums TWD 600 totally at the first 6 months. From the 7th month, the monthly National Health Insurance premiums shall be TWD 826. Students who have proof of economic hardship only pay TWD 413 of the insurance premiums.

□ Books : TWD per semester

□ Teaching materials : TWD per semester

□ Laboratory : TWD per semester

■ Computer usage : TWD 500 per semester for the first and second academic years. No computer usage fee will be charged in the third and fourth academic years.

■ Internet usage : TWD 300 per semester for the first and second academic years; TWD 150 per semester for the third and fourth academic years.

■ Group insurance : TWD 300 per semester.

3. Accommodation fee:

(1) During the Academic Term, Biyuan / Honglou 4-Person Room, accommodation fee TWD 10,500; air-conditioning fee TWD 0; security deposit TWD 5,000; dormitory internet fee TWD 0. Xinyuan 4-Person Room, Accommodation fee TWD 11,500; air-conditioning fee charged based on actual usage; security deposit TWD 5,000, dormitory internet fee TWD 0.

(2) During Winter and Summer Breaks, 4-Person Room: Accommodation fee TWD 200 per day; air-conditioning fee TWD 1,000 per month, security deposit TWD 0; dormitory internet fee TWD 0.

II. Living expenses: about TWD 8,000 per month.

III. Additional charge:

(1) Certificate examination fees are charged based on actual fees.

(2) Medical check-up fee: TWD 600-1,000.

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Taiwan Steel University of Science and Technology
Program	Department of Architecture (Building Equipment Engineering)
Program Description	<p>Teaching Policy : The curriculum plan is mainly based on construction, water, electricity, air conditioning and other construction equipment engineering technology-related subjects, and the required teachers are full-time part-time teachers from the Department of Architecture, Department of Electrical Engineering, and Department of Mechanical Automation of the school. The professional courses of the special class are divided into theoretical and practical courses, covering: architectural design, structure, environmental control, mechanical and electrical equipment and computer applications, etc., As shown later, the expertise and division of labor of full-time and part-time teachers in the department's professional courses.</p> <p>In addition, for practical courses on construction machinery, water, electricity, and other engineering and wiring, senior engineers from partner companies will be hired as industry instructors, and in conjunction with the off-campus internship courses starting from the second year, students will be trained to become professional construction equipment engineering and technical talents with both theory and practice.</p>
Graduate Career Development	Design, installation, and maintenance technicians for building equipment systems such as plumbing, electricity, air conditioning, and fire protection.
Mandarin courses (online or on-campus courses)	<p>Our Chinese language course is designed for students in the International Learning-Industry-Academia Cooperation Class, which takes into account the language of daily life, academic learning, and the Chinese language required by students for internship in the workplace.</p> <ol style="list-style-type: none"> 1. The first semester of the first year (basic Chinese): 5 credits/10 hours, focusing on the basic four tones and pinyin of beginner Chinese, the structure and stroke order of Chinese character components, and the basic vocabulary and grammar of daily life. Enable students to have basic Chinese listening, speaking, literacy, and writing skills. 2. The second semester of the first year (Basic Chinese): 3 credits/3 hours, with daily life vocabulary, dialogue, and grammar as the main learning content, introducing relevant Taiwanese culture and customs, as well as vocabulary and dialogue related to Chinese in the workplace. Students are equipped with at least A2 level vocabulary, daily listening and listening skills, and TOCFL A2 reading and listening skills. 3. Year 2 (Advanced Chinese): 3 credits/3 hours per semester, learn intermediate Chinese vocabulary and grammar, apply compound sentences and read short texts, and match the professional terminology necessary for the workplace and professional departments. Enable students to have intermediate listening, speaking, reading and writing skills, and the ability to express concepts clearly. 4. Third year (Applied Chinese): 2 credits/2 hours per semester, allowing students to familiarize themselves with intermediate and advanced Chinese vocabulary, and practice reading, listening, and expressing professional terminology in news media, online information, workplaces, and departments. Combine local culture and life-related topics to practice reading and writing in written language. Enable students to have intermediate and advanced listening, speaking, reading and writing skills, and be able to express concepts clearly and advanced comprehensive application of Chinese.

<p>Professional and Technical Training Courses (including internship subjects)</p>	<p><u>General Courses</u> 1. Basic Chinese 2. Advanced Chinese 3. Applied Chinese 4. Physical education 5. Introduction to Digital Transformation 6. Law and Life 7. Introduction to Sustainable Development 8. Workplace Ethics and Working Attitudes</p>	<p><u>Professional Courses Required</u> 1. Electricity 2. Building equipment engineering materials 3. Building physical environment 4. Building Environment Control Systems 5. Building Structural Behavior 6. Building Structural Systems 7. Sustainable Green Building Assessment 8. Building energy efficiency and carbon emissions</p> <p><u>Elective</u> 1. Calculus 2. Engineering Physics 3. Engineering Thermodynamics 4. Fluid mechanics 5. Lighting application technology 6. Facility management integration technology 7. Building equipment operation and test adjustment technology</p>	<p><u>Internship and practical Courses Required</u> 1. Architectural Design (1)(2) 2. Industry internship (1)(2)(3) 3. Engineering Graphics 4. Computer-aided drawing 5. BIM Computer modeling 6. Construction drawings 7. Construction management practice 8. Valuation of building equipment projects</p> <p><u>Elective</u> 1. Introduction to computer applications 2. Water supply and drainage sanitation equipment engineering practice 3. Engineering practice of sewage treatment equipment 4. Electrical equipment engineering practice 5. Air conditioning equipment engineering practice 6. Fire protection equipment engineering practice 7. Practice of house automation control engineering 8. Solar photovoltaic application practice 9. Industrial internship (4) (5) (6).</p>
<p>Internship</p>	<p>1. Off-campus internships are conducted from Year 2 to Year 4, with approximately 3 internship days per week. The maximum internship hours are up to 20 hours per week. 2. Internship allowance and benefits: ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hours. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits : According to the regulations of the internship institution. 3. Institution: Xiongleng Engineering Company , Xiongyu Engineering Company</p>		
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
<p>Employment Counseling</p>	<p>1. Taiwan Steel Group is the first comprehensive group in Taiwan to cover four major industries and twelve major fields, spanning four major fields including "Taiwan Netcom", "Taiwan Steel", "Taiwan Chemical Materials" and "Taiwan Health Sports", and its industries include carbon steel, special steel, fasteners, aerospace, networking, communication engineering, environmental protection, petrochemicals, biotechnology, health and leisure, sports events and service industries, with a total of</p>		

	<p>45 companies, and currently 15 listed companies are a strong group. With Taiwan Steel Group's investment in Taiwan Steel University of Science and Technology, the group can provide more employment opportunities for students.</p> <p>2. This class has been agreed with cooperative institutions that students who perform well during the study period will be given priority after graduation, and their employment location can be in Taiwan or sent to foreign branches to assist in career development.</p>												
<p style="text-align: center;">Further Education After Graduation</p>	<p>1. Graduates of this program can take the admissions examination for master's programs in architecture and mechanical and electrical related departments of each school in accordance with relevant regulations. For example: master's program in the Department of Architecture, master's program in the Department of Electrical Engineering.</p> <p>2. Students can apply for dual courses organized by our school and overseas sister schools in Vietnam, Indonesia, the Philippines and other regions, or continue their studies at sister schools after graduation, which must be done in accordance with regulations.</p> <table border="1" data-bbox="456 741 1469 1048"> <thead> <tr> <th>Country</th> <th>Partner university offered dual degree program</th> </tr> </thead> <tbody> <tr> <td>Vietnam</td> <td>Hanoi University of Technology, Red Star National University, Hai Duong National College of Business and Business</td> </tr> <tr> <td>Indonesia</td> <td>Marie Joseph School · SMA Khadijah Surabaya · Theresiana Vocational High School</td> </tr> <tr> <td>Philippine</td> <td>Lyceum of the Philippines University</td> </tr> </tbody> </table>	Country	Partner university offered dual degree program	Vietnam	Hanoi University of Technology, Red Star National University, Hai Duong National College of Business and Business	Indonesia	Marie Joseph School · SMA Khadijah Surabaya · Theresiana Vocational High School	Philippine	Lyceum of the Philippines University

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Hungkuang University		
Program	Department of Food Science and Technology (Bakery Technology Track)		
Program Description	<p>The "Four-year Industry-academia Collaboration Overseas Youth Technical Training Program" offered by the Department of Food Science and Technology (Baking Technology Track) emphasizes the integration of theory and practice. Through partnerships with food enterprises like Isabelle, Gourmet Master, and Fu-Manna Foods, it arranges 720 hours of internships to enhance students' technical and managerial skills. The curriculum includes 128 credits, supported by an excellent faculty team, offering comprehensive training.</p>		
Graduate Career Development	<p>The types of positions nurtured by the Academia-Industry Cooperation Bachelor's Program in the Baking Technology Track of the Food Science and Technology Department are primarily related to the food processing and baking industries. After graduation, students can take up roles such as bakers, food research and development engineers, quality control engineers, production line managers, food safety inspectors, food technology R&D assistants, food industry technical consultants, and food factory technicians.</p>		
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> The curriculum planning for the first and second academic years includes 4 credits and 6 hours per week for both the "Basic Mandarin Listening and Speaking" and "Basic Mandarin Reading and Writing" courses. The course content will be adjusted according to the students' levels, providing Mandarin teaching materials suitable for their learning. Our Chinese Language Center offers consultation hours with Chinese language teachers and arranges local students to be study partners, assisting students in adapting to their academic and daily life. 		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u> General Education Courses (Total: 20 credits / 20 hours)</p> <ol style="list-style-type: none"> Humanities Introduction to Creativity Chinese Reading and Writing I & II English I & II Application Design Physical Education Humanities and Arts Social Sciences 	<p><u>Professional Courses Required</u></p> <ol style="list-style-type: none"> Cookie Practicum Management Baking Science and Practice Principles Food Hygiene and Safety Advanced Bread Practicum Consumer Psychology Nutrition Advanced Food Baking and Practicum Advanced Cake and Pastry Practicum Food Processing (with Lab) Advanced Chinese Pastry and Noodle Practicum Food Microbiology (with Lab) International Bread Practicum Food Chemistry (with Lab) International Cake and Pastry Practicum Food Analysis (with Lab) 	<p><u>Internship and practical Courses Required</u></p> <ol style="list-style-type: none"> Professional Internship I Professional Internship II Professional Internship III

***Note:**

- (1) The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees.
- (2) Other fees:
 - Overseas compatriot student medical insurance premiums TWD 600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD 826 per month. Students who have proof of economic hardship (or financial difficulty document) only pay 50 % of the insurance premiums.
 - Books : Approximately TWD 1,000 per semester
 - Group insurance : Approximately TWD 950 per semester
 - Computer and Internet usage : Approximately TWD 1,200 per semester
 - Teaching materials and laboratory fees are charged based on actual fees per semester
- (3) Accommodation fee:
During semester (including winter and summer vacations):
 - TWD 12,600-17,500
 - Air conditioning fees are charged based on actual usage. Bedding costs of approximately TWD 1,500 in the first semester.
2. Living expenses (estimated): TWD 8,000 per month
3. Additional charge:
 - (1) Certificate examination fees are charged based on actual fees.
 - (2) Medical check-up fee: TWD 400
 - (3) Alien Resident Certificate (ARC): TWD 500 per year
 - (4) Working permit: TWD 100 per time

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Cheng Shiu University		
Program	Department of Information Management		
Program Description	<p>This program combines comprehensive theoretical and practical courses with industry-based internships, effectively achieving its educational goal of cultivating "next-generation smart business professionals equipped with the knowledge, skills, and innovative thinking required to integrate smart technology applications and e-commerce services."</p> <p>This program's professional courses, including "Programming," "Business Management," "Information Management," "Smart Technology," "Smart Business," "Data Analysis," and "Industry Internships," align with the latest trends in e-commerce and enterprise digital transformation. This program cultivates students into next-generation professionals in the e-commerce or smart retail industries, preparing them to return to their home countries or pursue employment in Taiwan in areas such as e-commerce, digital marketing, smart retail, and business data analysis.</p>		
Graduate Career Development	Software Engineer, Network Engineer, Data Analyst, Information Security Engineer, UX / UI Designer		
Mandarin courses (online or on-campus courses)	<p>Required Mandarin courses are in-school, with four-hour basic Mandarin classes each week during the first academic year, totaling 8 credits. The course content will be adjusted based on students' proficiency levels.</p> <p>Additionally, the school established a "Mandarin Center" in 2022 as a foundation for international students to learn Mandarin. Beyond the in-school classes, the center also offers Mandarin certification prep courses, online classes, and other educational resources to enhance students' Mandarin proficiency.</p>		
Professional and Technical Training Courses (including internship subjects)	<p><u>General courses</u></p> <ol style="list-style-type: none"> 1. Applied Chinese Listening I 2. Internship	<ol style="list-style-type: none"> 1. Period and working hours: Starting in the second academic year, an industry internship course is planned, offering 6 credits per semester. Semesters 3, 4, and 5 are required, while semesters 6, 7, and 8 are elective. Students work 3-4 days per week, up to 8 hours per day, with a maximum of 26 hours weekly. All work must be finished by 10 PM. 2. Internship allowance and benefits: <ul style="list-style-type: none"> ■ Allowance : In compliance with the wage regulations under the Labor Standards Act, part-time work is paid hourly, while internships are paid monthly, calculated based on the number of days worked. ■ Benefits : According to the regulations of the internship institution. 3. Institution: MEGA PX MART, Family Mart, 7-Eleven, and STUDIO A. 		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	1. Professional Learning Support System: The school has established a seven-part support system focused on understanding learning aptitudes, enhancing course		

	<p>guidance, implementing consultation and early warning systems, providing remedial teaching, offering certification support, and creating a student learning portfolio. The aim is to foster mentorship and strengthen practical skills.</p> <p>2. Employment Guidance System:</p> <p>(a) Led by the Alumni and Career Development Center, activities such as further studies guidance, elite lectures, and career fairs help students understand job market trends and prepare early.</p> <p>(b) Through internships, students gain practical skills and may be prioritized for employment upon graduation.</p> <p>(c) Students are encouraged to join industry-academia collaboration projects.</p>																		
<p style="text-align: center;">Further Education After Graduation</p>	<ol style="list-style-type: none"> Graduates of this program can take the entrance exam of the master's degree programs of other universities in accordance with relevant regulations. Students can also apply for the relevant master's program at our overseas partner universities or any other universities such as Graduate Institute of Information Management, Institute of Electronic Commerce, Graduate Institute of Technology Management, Master of Business Administration. 																		
<p style="text-align: center;">Scholarships and Financial Aids</p>	<ol style="list-style-type: none"> The OCAC provides the following grants and subsidies: <ul style="list-style-type: none"> The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. Emergency Aid: Provided on a case-by-case basis. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	HungKuo Delin University of Technology		
Program	Department of Hospitality Management		
Program Description	<p>1. The department's educational goal is to “cultivate talent in hospitality management with professional service competitiveness”, focusing on enhancing students' employability by developing workplace competitiveness, ethics, and attitudes, along with the essential professional knowledge needed for career growth. This prepares students for long-term career development in the hospitality industry.</p> <p>2. The Overseas Youth Vocational Training Program’s “Department of Hospitality Management” centers on two core curricula: “Hospitality Service and Management” and “Hotel Service and Management”. The program aims to cultivate overseas Chinese students into future culinary and management professionals in the hospitality sector, equipping them with innovative entrepreneurial thinking to create new opportunities in the job market. In culinary education, we continue to build foundational skills in culinary arts and front-of-house service; in hotel education, we emphasize advanced learning in hotel services and management, providing students with employability skills that keep pace with the times.</p>		
Graduate Career Development	Service Center Attendant, Bartender, Food and Beverage Servers, Kitchen Staff, Hotel Room Attendant		
Mandarin courses (online or on-campus courses)	<p>This program includes a one-year curriculum comprising Practical Chinese (I)(II), Everyday Chinese (I)(II), and language tutoring (I)(II), among other subjects, taught by specialized Chinese language instructors arranged by the school. All appointed Chinese language instructors meet the Ministry of Education's hiring standards, which require them to have graduate degrees or above from domestic or international universities and possess a Ministry of Education certificate in teaching Chinese as a second language. Alternatively, they may hold a graduate degree or above in Chinese literature, Taiwanese literature, or related fields of language education from a domestic or international university and have completed over 120 hours of Chinese language teacher training for teaching Chinese as a second language at a domestic or international university.</p>

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	HungKuo Delin University of Technology
Program	Department of Leisure Business Management
Program Description	<p>1. The educational objectives of this department are: (1) to cultivate a dedicated service attitude and workplace ethics; (2) to acquire professional knowledge and skills in tourism and leisure sports; and (3) to broaden diverse perspectives and foster lifelong learning. Based on industry needs, professional development, faculty expertise, and curriculum planning, we uphold the principles of "practical skills" and "reducing the learning-application gap" to cultivate practical and effective tourism, leisure sports service, and management talents. Our distinctive development is based on the principle of "adaptively igniting talents and meeting the needs of the leisure and leisure industry."</p> <p>2. This program is planned to focus on "tourism" and "leisure sports" as two major development axes. These two development axes are explained as follows: (1) Leisure Sports: The department applies knowledge development in the field of leisure sports. This combines practical experience in leisure sports with theoretical knowledge in sports science with the department's foundational knowledge in "service" and "management." We plan and implement customized events for related organizations. We can also provide scientific and professional diagnosis and advice based on individual exercise conditions and fitness levels. (2) Tourism: Faculty and students in the department integrate diverse knowledge systems through participation, discussion, collaboration, and sharing, aiming to cultivate practical and applicable talents. This is achieved through experiential and multifaceted learning and action learning. This includes student participation in on-campus internships, industry-university collaborations (campus guided tours and interpretation activities, campus ecological guided tours), overseas visits, and the creation of tour competition entries to achieve knowledge integration and unleash creativity.</p>
Graduate Career Development	<p>1. Travel agency operators, ticketing, marketing, and sales personnel; 2. Airline ticketing and sales personnel; 3. National park interpreters, ecological interpreters, and tour guides; 4. Tour leaders and tour guides; 5. Sports safety officers; 6. Leisure sports practitioners; 7. Leisure sports professional coaches and instructors; 8. Leisure activity planning, marketing, and professional management personnel; 9. Hotel and resort administration, marketing, and sales personnel; 10. Leisure farm and B&B management personnel; 11. Theme park marketing, management, and sales personnel; 12. Leisure club marketing, management, and sales personnel</p>
Mandarin courses (online or on-campus courses)	<p>This one-year program offers courses such as Practical Chinese (I) and (II), Daily Chinese (I) and (II), and Language Guidance (I) and (II). These courses are taught by dedicated Chinese language teachers assigned by the school. Chinese language teachers are hired in accordance with the Ministry of Education's recruitment standards and must hold a master's degree or higher from a domestic or international college and possess a Ministry of Education Certificate in Teaching Chinese as a Foreign Language, or a master's degree or higher from a domestic or international university in Chinese language and literature, Taiwanese literature, or language teaching, and have completed at least 120 hours of training at a domestic or international university for teaching Chinese as a foreign language.</p>

Internship	<ol style="list-style-type: none"> 1. Off-campus internships for courses 1-6 are scheduled for students in grades 2-4. Students must participate in off-campus internships within the country to meet course requirements. The internship duration is 40 hours per week. 2. Internship Allowances and Benefits <ul style="list-style-type: none"> ■ Internship Allowance: The internship partner will provide an internship allowance of no less than the base salary (calculated based on the number of internship days divided by the number of workdays in that month) or a base hourly wage. ■ Benefits: Staff meals, holiday bonuses, birthday prizes, company dinners, etc. 3. Internship Institutions: <ol style="list-style-type: none"> (1). Caesar International Management Consultants Caesar International Management Consultants Co., Ltd. was established in 2013 by the Hung Kuo Group, focusing on hotel operation, management, planning, and development. Its core business covers the construction and resource integration of various types of hotels. Since taking over the Taipei Hilton Hotel in 1988, the Hung Kuo Group has expanded into the hospitality industry and has developed the Caesar Hotels chain, comprising 10 hotels with more than 3,000 guest rooms. The chain includes five-star resorts, luxury tourist hotels, business hotels, and boutique hotels, making it one of the leading hotel groups in Taiwan. (2). World Gym Taiwan Branch: In 2001, World Gym officially entered Taiwan and actively introduced its modern fitness center business model to various locations across the country, aiming to provide Taiwanese residents with a healthier and more professional fitness environment. Between 2001 and 2022, World Gym experienced rapid growth in Taiwan. In 2010, it acquired all six California Fitness locations in Taiwan, expanding from a single location to encompass hundreds of large-scale fitness clubs, making it the largest fitness chain in Taiwan. officially entered Taiwan in 2001 and actively introduced its modern fitness center business model to various locations across the country, aiming to provide Taiwanese citizens with a healthier and more professional exercise environment. Between 2001 and 2022, World Gym experienced rapid growth in Taiwan, acquiring all six California Fitness locations in Taiwan in 2010. From a single location, World Gym has grown to encompass hundreds of large-scale fitness clubs, becoming the largest fitness chain in Taiwan. 		
Work-study During Semester	<p>In addition to the internship course, after obtaining a work permit in Taiwan, the maximum weekly work-study hours during the semester is 20 hours; there is no limit during winter and summer vacations.</p>		
Employment Counseling	<p>The implementation of the career guidance mechanism and supporting measures for students in the department are divided into four phases:</p> <ol style="list-style-type: none"> 1. Exploration Period: The university provides UCAN career interest assessments, career counseling, and related activities to help students better understand their personality traits, personal orientations, learning conditions, and career directions. In addition, the Counseling Center offers a variety of psychological assessments to support students in self-understanding and career planning. 2. Through professional courses and certification counseling, the department strengthens students' core competencies and actively encourages them to take professional certification exams. Since the 2005 academic year, the university has implemented the "Regulations for Skill Certification and Professional License Scholarships," offering scholarships based on certification levels to enhance 		

	<p>students' professional and technical abilities.</p> <p>3. Intensive period: (1) Practical Thematic Lectures: Industry executives, successful professionals, and distinguished alumni are invited to share insights on career planning, industry trends, employment markets, and job-seeking skills, as well as provide training in résumé and autobiography writing.(2) Corporate Field Visits: Faculty members lead students to visit enterprises, enabling them to understand real-world operations and management concepts, broaden their horizons, and gain deeper awareness of workplace dynamics.</p> <p>4. Confirmation period: (1) On-Campus Recruitment: Enterprises are invited to the university to conduct recruitment activities, including company presentations, interviews, and on-the-spot hiring, to improve job-matching effectiveness.(2) Graduate Employment Survey: Employment status is regularly tracked before graduation and one year after graduation, with feedback collected from alumni and employers.(3) Ministry of Labor Employment Program: With government subsidies, courses are offered on résumé writing, interview skills, industry analysis, and career planning.(4) Internship-to-Employment Program: In collaboration with Lion Travel and other enterprises, students selected through a rigorous process participate in internships, with the opportunity to transition to full-time employment upon graduation.</p>
<p style="text-align: center;">Further Education After Graduation</p>	<p>Graduates of this program can take the entrance examination for master's programs in related departments of various universities according to relevant regulations. For example:</p> <p>(1) National Taiwan Normal University: Institute of Sports, Leisure and Hospitality Management;</p> <p>(2) National Kaohsiung University of Science and Technology: Department of Tourism Management, Master of Tourism and Hospitality Management;</p> <p>(3) Huwei University of Science and Technology: Leisure and Recreation Master's Program;</p> <p>(4) Kinmen University; Master's Program in Tourism Management;</p> <p>(5) National Kaohsiung University of Hospitality and Tourism: Graduate Institute of Tourism;</p> <p>(6) National Pingtung University; Master's Program in Department of Leisure Business Administration.</p>
<p style="text-align: center;">Scholarships and Financial Aids</p>	<p>1. Overseas Chinese Affairs Council Subsidies</p> <p>(1). Tuition: NT\$20,000 per semester for the first and second academic years (tuition subsidies for public schools have already been collected, with a maximum limit of NT\$20,000).</p> <p>(2). Academic Excellence Scholarship: Awarded to students who meet academic standards during their first academic year after enrollment, each student receives NT\$6,000 per academic year.</p> <p>(3). Overseas Chinese Health Insurance: NT\$600 for six months (after arrival in Taiwan, but before enrolling in National Health Insurance).</p> <p>(4). National Health Insurance: Subsidizes half of the National Health Insurance deductible for students from financially disadvantaged backgrounds (NT\$413 per month).</p> <p>(5). Work-Study and Learning Assistance: The school arranges work-study or learning activities, with a monthly subsidy of NT\$2,500 per student depending on participation.</p> <p>(6). Emergency Relief and Aid: Assistance is provided on a case-by-case basis.</p> <p>2. School Provisions:</p> <p>Tuition and Miscellaneous Fee Waivers: (After deducting direct government subsidies)</p> <p>(1). Tuition and Miscellaneous Fees are waived for new students in their first and</p>

second semesters (i.e., first year).
 (2). A quarter of the tuition and miscellaneous fees will be waived for the third and fourth semesters (i.e. the second academic year).

1. General Fees

Amount per academic year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
First year First Semester (excluding subsidies from the Overseas Chinese Affairs Commission and the school)	9,028	4,635	3,990	13,000-15,000 (excluding water, electricity, and travel expenses and security deposit, and extra charges for winter and summer vacations)	30,653-32,653

<p style="text-align: center;">Internship</p>	<p>1. Off-campus internships begin in the second year. They are required in the first and second semesters of the second year and the first semester of the third year, and elective in the second semester of the third year as well as the first and second semesters of the fourth year. Students are required to intern three days per week, with approximately 24 internship hours per week.</p> <p>2. Internship allowance and benefits:</p> <p style="padding-left: 20px;">■ Allowance: The internship allowance is calculated based on the Basic Wage stipulated by the Labor Standards Act, multiplied by the student’s total monthly internship hours, in order to enhance students’ motivation for participation and learning. If the weekly internship or work hours reach 40 hours, the allowance may be paid either according to the government-announced hourly basic wage or on a pro-rated monthly salary basis, and the payments will be deposited separately.</p> <p style="padding-left: 20px;">For the year 2025, the government-announced basic wage is NT\$190 per hour; alternatively, when calculated on a monthly basis, the statutory minimum wage for full-time labor service (up to 40 hours per week) is NT\$28,590 per month.</p> <p style="padding-left: 20px;">■ Benefits: The employee benefits vary by internship company and are provided in accordance with each company’s existing benefits policy.</p> <p>3. Institution:</p> <ul style="list-style-type: none"> <input type="checkbox"/> MiTAC Computing Technology Co. <input type="checkbox"/> Pronology Services Inc. <input type="checkbox"/> SGS Taiwan Ltd. <input type="checkbox"/> Super Storage Technology Co. <input type="checkbox"/> Tatung Company <input type="checkbox"/> TUL Corporation <input type="checkbox"/> UL Solutions <input type="checkbox"/> WAVE-IN Communication Co.
<p style="text-align: center;">Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students’ total working hours shall NOT exceed 20 hours per week.</p>
<p style="text-align: center;">Employment Counseling</p>	<p>1. Annual On-Campus Recruitment and Career Fairs</p> <p style="padding-left: 20px;">These include the New Taipei City Online Campus Recruitment Event, the “New Taipei Far Eastern Career Start-Up” Campus Job Fair, and the Taiwan Jobs & National University Joint Online Job Fair. In addition, career counseling activities such as career development seminars and off-campus internship orientation sessions are also organized.</p> <p>2. Retention Mechanism of Internship Organizations</p> <p style="padding-left: 20px;">Internship providers will evaluate students based on their performance during the internship, progress in professional skill alignment, and interactions with colleagues/supervisors. Approximately three months before the end of the internship, the organization will inquire whether the student is willing to stay on as a regular employee.</p>

<p style="text-align: center;">Further Education After Graduation</p>	<p>1. Graduate Study Opportunities</p> <p>Graduates of this program are eligible, in accordance with relevant regulations, to take entrance examinations for master’s programs in related information and communication fields at various universities. Examples include Communications Engineering, Computer Science and Engineering, Electronic Engineering, Electrical Engineering, or the Master’s Program in Communications Engineering at the same university.</p> <p>2. Opportunities for Further Study or Exchange</p> <p>Students in this program may pursue further studies or participate in exchange programs at partner universities.</p> <table border="1" data-bbox="454 537 1412 741"> <thead> <tr> <th style="text-align: center;">Country</th> <th style="text-align: center;">Partner university</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">Japan</td> <td style="text-align: center;">Hiroshima University</td> </tr> <tr> <td style="text-align: center;">Malaysia</td> <td style="text-align: center;">Universiti Tunku Abdul Rahman</td> </tr> <tr> <td style="text-align: center;">Malaysia</td> <td style="text-align: center;">Universiti Malaysia Perlis</td> </tr> </tbody> </table>	Country	Partner university	Japan	Hiroshima University	Malaysia	Universiti Tunku Abdul Rahman	Malaysia	Universiti Malaysia Perlis

Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Asia Eastern University of Science and Technology		
Program	Department of Industrial Management		
Program Description	With the rise of Industry 4.0, the traditional thinking of manufacturing has been gradually transformed into smart manufacturing. Accordingly, this course aims to equip manufacturing professionals with basic managerial skills in both theoretical and practical aspects of "operational process management" (smart factory manufacturing) and "enterprise management decision making" (smart factory management).		
Graduate Career Development	Production control specialist, quality control engineer, process engineer, production line supervisor, project manager, materials specialist, property management specialist, warehouse management specialist		
Mandarin courses (online or on-campus courses)	All courses are on-campus (Elementary Chinese Language I and II, Chinese Oral Communication, Chinese Speaking and Writing, and Chinese Reading), totaling 18 credits and 504 hours. In addition, students who do not reach the TOCFL B1 level are required to take an additional 90 hours of on-campus Chinese language tutoring in each semester of their first year. This is free of charge.		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses Required</u></p> <ol style="list-style-type: none"> 1. ELEMENTARY MANDARIN CHINESE(I) 2. ELEMENTARY MANDARIN CHINESE(II) 3. MANDARIN CHINESE ORAL COMMUNICATION 4. SOCIETY AND CULTURE IN TAIWAN 5. SPORT AND HEALTH 6. CHINESE SPEAKING AND WRITING 7. CHINESE READING 8. Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Tungnan University		
Program	Department of Leisure Management		
Program Description	The Leisure Management Department establishes a strong foundation in basic subjects for students and provides them with a solid grounding in management principles. Additionally, it cultivates practical skills and operational management in various industrial areas, enabling students to apply these competencies in the workplace. The department places a strong emphasis on practical training, assisting students in obtaining relevant professional certifications to enhance their competitiveness in the job market. Through guided practical project courses and off-campus internships, it combines theory with hands-on experience and strives to integrate industry resources, ensuring that students are proficient in practical skills relevant to the workplace, aligning their abilities with the immediate demands of the industry.		
Graduate Career Development	<ol style="list-style-type: none"> 1. Fitness center instructor 2. Aviation industry attendant 3. Lead tour guide 4. Tourism industry waiter 5. Event Planner 6. Hotel waiter 		
Mandarin courses (online or on-campus courses)	The department offers seven required Chinese language courses during the first and second academic years, including "Chinese Listening I/II", "Chinese Reading I/II", "Chinese Conversation I/II", and "Chinese Writing". The total study hours for these courses amount to 378 hours.

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program (OYVTP)
Admission Prospectus for the 2026 Academic Year**

School	Tungnan University
Program	Department of Interior Design
Program Description	The Department of Interior Design is mainly designed to meet the needs of industrial talents and is divided into two major objectives: "Interior Design" and "Interior Decoration Engineering Management". The curriculum design is closely related to the educational objectives and the cultivation of students' core abilities. In terms of professional course design structure, the department provides students with a step-by-step learning process based on the four-year planning axis. The department places a strong emphasis on practical training, assisting students in obtaining relevant professional certifications to enhance their competitiveness in the job market. Through guided practical project courses and off-campus internships, it combines theory with hands-on experience and strives to integrate industry resources, ensuring that students are proficient in practical skills relevant to the workplace, aligning their abilities with the immediate demands of the industry.
Graduate Career Development	<ul style="list-style-type: none"> ● Designer <ol style="list-style-type: none"> 1. Interior planning designer 2. Landscape designer 3. Industrial Internship (I) and (II) are offered in the second year, with 9 credits per semester and 40 hours of internship per week, 3 days per week. A monthly allowance of NT\$28,590 is provided. 3. Industrial Internship (III) and (IV) are offered in the fourth year, with 9 credits per semester and 40 hours of internship per week, 3 days per week. A monthly allowance of NT\$28,590 is provided. 4. Allowance and benefits <ul style="list-style-type: none"> ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hours or monthly. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefit : The internship company provides work meals, full attendance bonuses, and accommodation allowances for internship dormitories. 5. Institution: 		

	<p>(1) Fleur de Chine Hotel Co., Ltd., (Sun Moon Lake Branch)</p> <p>(2) The Lalu Hotel Co., Ltd.</p> <p>(3) Hi-Lai Hotel Co., Ltd., Nantou Branch</p> <p>(4) LeaLea Resort Sun Moon Lake (LeaLea Hotels Co., Ltd.)</p> <p>(5) Lea King Enterprise Co., Ltd. (LeaLea Wyndham Hot Springs Sun Moon Lake)</p> <p>(6) Ruiju Resort Hotel Co., Ltd.</p>
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.
Employment Counseling	<p>1. Part-time job matching channels, career guidance lectures, explanations and evaluation systems.</p> <p>(1) The International Affairs Office of our university has a dedicated project manager for career counseling for international students in Taiwan. This person is responsible for matching graduates with jobs, conducting job fairs for companies, and conducting job evaluation sessions. The department also collaborates with the Office of Research, Development, and Industry-Academic Cooperation to organize job fairs and invite companies to class to promote job matching. This helps students prioritize employment opportunities with partner companies, both domestically and internationally. Students may pursue careers in automotive component design and manufacturing, or advanced vehicle repair and service.</p> <p>(2) Further studies and career counseling: Individualized career planning advice is provided by instructors of the class.</p> <p>(3) Certification and Competition Guidance: Students are encouraged to participate in vehicle-related certification and professional competitions, and practical courses and simulation tests are arranged on campus to enhance their practical skills.</p> <p>(4) Alumni experience sharing and discussion: arrange for graduates to return to the department to share their work experience and promote the new generation's understanding of industry trends and workplace needs.</p> <p>2. Talent retention mechanism for internship institutions Graduates of this program who wish to stay in Taiwan to work can apply for a work permit through the "Point-Based Work Permit System" with a total score of 70 or above.</p>
Further Education After Graduation	After graduation, students will receive a bachelor's degree and can apply for a master's degree at NKUT or other institutions in accordance with regulations.
Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). ● Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. <p>2. Scholarship and subsidies provided by the University:</p>

- Freshman Scholarship: 20,000 /40 students (first semester of first year)
- On-campus Scholarship:
 - 3,615 /40 students(2nd semester of 1st year to 2nd semester of 2nd year)
 - 3,615 /40 students(1st semester of 3rd year to 2nd semester of 4th year)
- Accommodation Allowance: Free accommodation during the first year

*Note:

1. Admitted students will receive a freshman scholarship for the 1st semester, which will be deducted from the tuition.
2. From the 2nd semester of the 1st academic year to 2nd semester of 2nd academic year, students with an average grade of 60 or above in the previous semester, TOCFL A2 or above, an absence rate of less than 10%, and no demerits will receive a continuing scholarship, which will be deducted from the tuition.
3. From the 1st semester of the 3rd academic year to 2nd semester of 4th academic year, students with an average grade of 60 or above in the previous semester, TOCFL B1 or above, an absence rate of less than 10%, and no demerits will receive a continuing scholarship, which will be deducted from the tuition.

**Tuition and Fees
(TWD)**

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	0	6,615	2,500	14,000 (Excluding water, electricity, air conditioning, deposit, and accommodation fees during winter and summer vacations)	23,115
1 st year Second semester (The amount after deducting OCAC grant)	17,524	9,091	6,856	14,000 (Excluding water, electricity, air conditioning, deposit, and accommodation fees during winter and summer vacations)	47,471

<p style="text-align: center;">Internship</p>	<p>1. Off-campus internships are conducted from Third Grade , with approximately three days internship days per week. The maximum internship hours are up to 24 hours per week.</p> <p>2. Internship allowance and benefits:</p> <ul style="list-style-type: none"> ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits : Formulate subsidy distribution methods based on the internship cooperation situation, such as employee meal expenses, bonuses. <p>3. Institution:</p> <ol style="list-style-type: none"> 1. KINSUS INTERCONNECT TECHNOLOGY CORP. 2. DEPO AUTO PARTS IND. CO., LTD. 3. E.C.I. Elastic Co., Ltd 4. MEICHA FURNITURE CO., LTD.
<p style="text-align: center;">Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>
<p style="text-align: center;">Employment Counseling</p>	<p>1. School employment matching channels, employment counseling lectures, such as explanations and evaluation systems and other measures</p> <p>(1). Employment matching channels and counseling lectures: After students enter Taiwan, multiple career counseling lectures will be held in the second semester of the first grade, and cooperative vendors will be invited to the school to introduce the company's operating status, work content, salary and benefits, and future vision. And retention and promotion, etc.</p> <p>(2). Employment counseling lectures: After students enter Taiwan, they will receive workplace ethics and workplace safety lectures, labor relations lectures, etc. before employment internship to facilitate students' smooth employment.</p> <p>(3). Evaluation system and measures: After students enter Taiwan, they will be graded based on their class performance, including teacher ratings, midterm (final) exam scores, absences, rewards and punishments, etc., and companies will be selected based on the scores.</p> <p>2. The internship organization's retention mechanism is broadly divided into six key areas:</p> <ol style="list-style-type: none"> (1). Work attendance and absence performance (2). Work attitude: proactive and responsible (3). Diligent cooperation with company assignments (4). Good communication skills (5). Ability to work independently and diligently (6). Other tasks assigned by supervisors <p>The company and the school jointly evaluate the following: Professional knowledge and skills (7.5%), learning attitude (7.5%), work planning and execution (5%), communication and coordination skills (5%), interpersonal relationships (5%), service quality (5%), time management skills (5%), work initiative and diligence (5%), and interpersonal relationships and ability to handle unexpected situations (5%) before retention is determined.</p>
<p style="text-align: center;">Further Education After Graduation</p>	<p>Graduates of this program can obtain a master's degree by taking the Electronic Engineering Graduate School of our university or other electronic related entrance examinations at other universities (such as the Electrical Engineering Graduate School and the Mechanical Engineering Graduate School).</p>

Scholarships and Financial Aids

1. The OCAC provides the following grants and subsidies:
 - The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000)
 - Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

■Scholarships

Scholarships	Amount (NTD)	quota of people	Eligibility	note
Freshman Admission Bursary	19,800	30	First semester of enrollment	Completed registration
Academic Scholarship for Excellent Scholarships	6,000	5	1. Those with a conduct score of 80 points and no disciplinary records. 2. Those with an average academic score of 80 or above can apply	Those who have excellent academic performance and comply with school regulations in the second semester

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	19,800	14,420	8,878	9,100	52,198

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Meiho University (MU)
Program	Department of Tourism (Hospitality and Tourism Services)
Program Description	<p>Program Objectives</p> <p>This program is designed for overseas students who are interested in both Chinese language learning and vocational training in Taiwan’s industry-academia cooperation system. The objective is to cultivate students with strong Chinese language proficiency, professional skills, and practical work experience to enhance their future career development and employability.</p> <p>The curriculum is divided into three major areas:</p> <ol style="list-style-type: none"> 1. Chinese Language Courses – Strengthening students’ listening, speaking, reading, and writing abilities. 2. General, Professional, and Internship Courses – Covering basic academic subjects, vocational training, and fieldwork. 3. Industry Internship – Providing hands-on work opportunities in cooperation with enterprises, enabling students to gain real-world experience.
Graduate Career Development	<p>Graduates of this program are trained to pursue careers in various fields of tourism and hospitality, including but not limited to:</p> <ul style="list-style-type: none"> • Hotel Managers • Housekeeping Staff • Hotel/Hostel Front Desk Clerks • Hotel Service Staff • Restaurant Service Personnel • Travel Agency Staff • Tour Leaders • Tour Guides • Operation/ Ticketing Personnel (OP/Ticketing) • Tour Interpretation and Guiding Personnel <p>This wide range of career opportunities ensures that graduates can apply their professional training to the tourism, hospitality, and service industries both domestically and internationally.</p>
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> 1. First Academic Year (Fall & Spring Semesters): Each semester includes a 3-credit, 6-hour Chinese Language course and a 2-credit, 4-hour Chinese Language Proficiency Test course. The course content will be adjusted according to students’ proficiency levels to provide suitable Chinese learning support. 2. Second Academic Year (Fall & Spring Semesters): Each semester offers a 3-credit, 3-hour Advanced Chinese Conversation course designed to further develop students’ oral communication skills. 3. Additional Support: The university’s Chinese Language Center provides consultation hours with Chinese language instructors and arranges local student learning partners to assist international students in both academic learning and daily life adaptation.

<p style="text-align: center;">Professional and Technical Training Courses (including internship subjects)</p>	<p><u>General Courses</u></p> <ol style="list-style-type: none"> 1. Internship	<ul style="list-style-type: none"> 1. Internship Implementation <ul style="list-style-type: none"> (1) Off-campus internships are arranged during the second academic year. (2) Students are required to participate three days per week, with a total of approximately 24 internship hours per week. 2. Allowance and Benefits <ul style="list-style-type: none"> (1) Internship Allowance: In accordance with Taiwan’s Labor Standards Act, the basic hourly wage is applied. For 2025, the minimum wage is TWD 190 per hour. If calculated monthly, based on the statutory maximum of 40 working hours per week, the minimum monthly payment is TWD 28,590. (2) Benefits: Depending on the policies of each internship enterprise, benefits may include staff meals, year-end bonuses, holiday bonuses, birthday gifts, and other employee welfare programs. 3. Internship Institutions <p>Students will be placed in reputable hotels and resorts, such as:</p> <ul style="list-style-type: none"> (1) E-Da Skylark Hotel (2) Fullon Hotel Kaohsiung (3) Fullon Resort Kenting (4) Chateau Beach Resort Kenting 		
Work-study During Semester	<p>Aside from internship courses, students who have obtained a work permit in Taiwan may engage in part-time work. During the academic semester, the weekly working hours are limited to 20 hours, while there are no restrictions during the winter and summer vacations.</p>		

Employment Counseling	Mechanism	School	Company / Industry Partner
	Student Selection	Organize special program admission briefings, explain the overall curriculum and related career development, and conduct student selection procedures.	Participate in admission briefings, provide information on relevant job vacancies, and jointly select students.
	Internship Guidance & Practical Training	Provide internship positions, manage internship assignments, and guide students before, during, and after the internship to deepen practical professional skills.	Assist students in understanding career orientation, provide professional hands-on training, and help students understand the development of relevant job competencies.
	Employment Retention by Company	Guide students to secure employment immediately after graduation.	Conduct interviews and select graduates from the special program for employment.
Further Education After Graduation	<p>1. Upon graduation, students are eligible to pursue further studies in tourism-related master's programs at leading universities. Options include the Master's Program in Tourism and Hospitality Management at National Kaohsiung University of Science and Technology, as well as the Master's Programs in Tourism Studies and in Hospitality Management at National Kaohsiung University of Hospitality and Tourism.</p> <p>2. Graduates may also continue their academic journey at our own university by applying to the Master's Program in Sport and Leisure Management or the Master's Program in Business Administration.</p>		
Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). ● Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. <p>1. Scholarship and subsidies provided by the University:</p> <ul style="list-style-type: none"> ● Full waiver of dormitory fees for the first academic year. ● From the second academic year onward, students whose academic and conduct scores in the previous semester are both 80 or above may receive a 50% reduction in dormitory fees if they continue to live in school dormitories. 		

Tuition and Fees (TWD)

I. School Fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	17,165	12,557	2,150	0 (excluding electricity/water fees and deposit; housing during winter and summer breaks is not included)	31,872

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program (OYVTP)
Admission Prospectus for the 2026 Academic Year**

School	Hsiuping University of Science and Technology		
Program	Department of Electronic Engineering		
Program Description	Our department focuses on two main areas:“Optoelectronics and Sensing Technology” and “Artificial Intelligence Electronic Applications.” The first includes optoelectronic semiconductors, touch sensing, and green energy, while the latter covers AI applications, drones, and automotive electronics. The Department’s future development directions align closely with Taiwan’s industrial development trends and talent demands.		
Graduate Career Development	Electronics Engineer, Semiconductor Engineer, Optoelectronics Engineer, Software Engineer, etc.		
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> In the first and second semesters, students will take a 2-credit, 2-hour “Oral Speaking in Mandarin” course and a 2-credit, 2-hour “Living Mandarin” course. The content will be tailored to the students’ proficiency levels to provide suitable learning support. In the third and fourth semesters, students will take a 2-credit, 2-hour “Professional Chinese” course, focusing on the language skills needed for internships and professional settings, helping them adapt to the work environment and acquire technical expertise. The university’s Chinese Language Center also offers after-class tutoring to further strengthen students’ Chinese proficiency.

***Note:**

1. The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees.

2. Other fees:

■ Overseas compatriot student medical insurance premiums TWD\$600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD\$826 per month. Students who have proof of economic hardship (or financial difficulty document) only pay 50 % of the insurance premiums.

■ Books : TWD\$3,000 per semester (charged based on actual situation).

■ Teaching materials : TWD\$3,000 per semester (charged based on actual situation).

■ Computer and Internet usage : TWD\$1,090 per semester

■ Group insurance : TWD\$ 449 per semester

3. Accommodation fee:

(1) During semester (18 weeks):

● TWD\$8,950 for Quadruple or Five-person Room (2nd, 3rd and 4th year).

● Deposit: TWD\$1,000 per person.

(2) During winter and summer vacations: winter break - approximately TWD\$2,500; summer break - approximately TWD\$5,000 (calculated based on actual residence period), and the deposit is 1,000 yuan per person.

※ Students must live in the school dormitory during their first academic year. The accommodation fee includes water, electricity, fuel, and dormitory electricity (including air conditioning and other indoor electricity). If the minimum electricity consumption exceeds the minimum, the difference must be paid.

4. The total fee has not yet reflected the deduction of school scholarships and grants.

II. Living expenses (estimated) : TWD\$6,000 per month (depending on your actual situation)

III. Additional charge:

(1) Certificate examination fees are charged based on actual fees.

(2) Medical check-up fee: TWD\$850

	<p>(3) Alien Resident Certificate (ARC): TWD\$500 per year (Restricted to holders of a residence visa, in accordance with government-approved fees.)</p> <p>(4) Working permit: TWD\$100 per application (Payable according to government-approved fees.)</p> <p>(5) Bedding is approximately TWD\$2,500 per set (purchased based on personal needs).</p>

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	National Kaohsiung University of Hospitality and Tourism		
Program	Department of Travel Management		
Program Description	The curriculum is designed to cultivate tourism and hospitality professionals equipped with competencies in professional practice, tour guiding and interpretation, service planning, event and talent management, information technology, operations management, language communication, and broad global awareness.		
Graduate Career Development	Tour leaders, tour guides, airline ticketing staff, airport ground staff, hotel and restaurant service personnel, etc.		
Mandarin courses (online or on-campus courses)	<p>1. Professional Mandarin Language and Culture Application Courses</p> <p>Our university offers courses in Mandarin language and cultural applications, covering fields such as humanities, social sciences, arts, and liberal studies. These courses are designed to comprehensively enhance students' Mandarin proficiency and cultural literacy. Within the general Chinese curriculum, specialized courses are arranged in listening and speaking, reading and writing, as well as advanced Mandarin. The program emphasizes the four core skills—listening, speaking, reading, and writing—and flexibly adjusts the difficulty and intensity of instruction according to students' proficiency levels, helping them strengthen their Mandarin communication abilities and achieve effective learning outcomes.</p> <p>2. Diverse Learning Activities and Career Integration</p> <p>Each semester, the Language Center organizes a variety of thematic activities and courses to help students integrate more quickly into life in Taiwan and on campus. These include Mandarin for hospitality activities and special lectures, TOCFL certification guidance, peer-learning programs, career-oriented workshops, and Mandarin language competitions. Such initiatives enable international students to gain in-depth experiences of Taiwanese culture, expand social networks, and build stronger connections to future career development.</p>

<p style="text-align: center;">Internship</p>	<p>1. Off-Campus Internship Arrangement</p> <p>Internships are conducted in the fourth year of study, with a full-time schedule of five working days per week, totaling approximately 40 hours weekly.</p> <p>2. Internship Allowance and Benefits</p> <ul style="list-style-type: none"> • Allowance: Interns receive stipends in accordance with Taiwan’s Labor Standards Act minimum wage regulations. Compensation is provided either on a monthly or hourly basis, depending on the employer’s payroll system. In 2025, the minimum hourly wage is TWD190. For monthly payments, the minimum statutory wage based on a maximum of 40 working hours per week is TWD28,590. • Benefits: Depending on the host organization, benefits may include National Health Insurance, Labor Insurance, company group insurance, employee purchase discounts, birthday vouchers/bonuses/leave, annual banquets, departmental gatherings, annual health checkups, festival gifts/bonuses, allowances for weddings, funerals, or special occasions, laundry service for uniforms, and staff meals. (Exact benefits are determined by each host organization.) <p>3. Internship Partners</p> <p>Partner organizations include: EZ Travel, Lion Travel Group, Tong Cheng Huali Travel Agency, Grand Hi-Lai International Hotel Co., Ltd., Hotel Kingdom Co., Ltd., Han-Hsien International Hotel Co., Ltd., Old New Taiwanese Cuisine Co., Ltd., and Yonshin Tea & Cake Selection Bar.</p>
<p style="text-align: center;">Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students’ total working hours shall not exceed 20 hours per week.</p>
<p style="text-align: center;">Employment Counseling</p>	<p>1. Career Activities and Employment Support</p> <p>All international students are eligible to participate in both on-campus and off-campus career activities. The university also organizes on-campus job fairs to connect students with employment opportunities, supporting their transition to work in Taiwan. In addition, through career information sessions, the university promotes the points-based system and related policies, helping students better understand the application process for residency.</p> <p>2. Internship System and Career Pathways</p> <p>The university’s internship program has been implemented for many years and has earned a strong reputation in the industry. Beyond securing favorable internship benefits for students, the program also creates opportunities for post-graduation employment and career advancement. For interns who wish to remain in Taiwan, the program facilitates a direct pathway from graduation to full-time employment. Many partner organizations already have mechanisms to encourage retention, such as salary increases upon conversion to full-time positions and continuous recognition of work seniority, making them attractive options for students to continue their careers in Taiwan.</p>

<p style="text-align: center;">Further Education After Graduation</p>	<p>1. Graduate Study Opportunities at NKUHT</p> <p>Graduates of this special program are eligible, in accordance with relevant regulations, to apply for entrance examinations to master’s programs offered at NKUHT, such as the Graduate Institute of Food Culture, the Graduate Institute of Tourism, and the International Master’s Program of Tourism and Hospitality (English-taught).</p> <p>2. Dual Degree and Overseas Study Opportunities</p> <p>Students in this program may also apply for dual-degree programs or further study at NKUHT’s overseas partner institutions in regions such as Australia and Europe, in accordance with the terms specified in the signed MOUs. Partner universities include: the University of Queensland (Australia), Swiss Hotel Management School (Switzerland), and the University of Essex (United Kingdom).</p>												
<p style="text-align: center;">Scholarships and Financial Aids</p>	<p>I. Overseas Community Affairs Council (OCAC) Support</p> <ol style="list-style-type: none"> 1. Tuition Subsidy: TWD20,000 per semester per student for the first and second academic years (up to TWD20,000; actual amount depends on tuition charged by public universities). 2. Merit Scholarship: TWD6,000 per academic year for students who achieve the required academic performance after enrollment. 3. Overseas Student Insurance (僑保): TWD600 for six months (before students are eligible for National Health Insurance after arrival in Taiwan). 4. National Health Insurance Subsidy: For financially disadvantaged students, half of the NHI self-payment (TWD413 per month) is subsidized. 5. Work-Study & Learning Allowance: Students may receive TWD2,500 per month, depending on participation in work-study or learning activities arranged by the university. 6. Emergency Assistance: Case-by-case support is provided for students in urgent need. <p>II. University Support</p> <ol style="list-style-type: none"> 1. Mandarin Proficiency Certificate Incentive: Rewards ranging from TWD1,500 to TWD3,500 for obtaining TOCFL certificates (A2–C1 levels) after enrollment. No quota limit. 2. English Proficiency Certificate Incentive: Rewards ranging from TWD800 to TWD6,500 for obtaining international English proficiency certificates (A2–C1 levels) after enrollment. No quota limit. 3. Emergency Relief Fund (Department of Travel Management): A special departmental fund is available to provide immediate financial assistance to students ineligible for other internal or external emergency funds. 4. Teaching Assistant Opportunities: Outstanding students may apply through the Office of Academic Affairs to serve as teaching assistants in professional subjects, working 25–40 hours per semester. Payment is based on the official hourly minimum wage announced annually by the government.

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	National Chin-Yi University of Technology		
Program	Department of Artificial Intelligence and Computer Engineering		
Program Description	<p>In this specialized program, both theoretical and practical courses are equally emphasized among the professional subjects and the internship/practical training courses. The curriculum consists of 34% theory (21 out of 61 credits) and 66% practical training (40 out of 61 credits).</p> <p>There are 74 credits of required professional modules and 114 credits of elective professional modules. Additionally, there are 24 required credits and 11 elective credits in general education courses.</p>		
Graduate Career Development	Semiconductor equipment engineers, semiconductor failure analysis engineers, software engineers, AI engineers, production testing engineers, and AI application engineers.		
Mandarin courses (online or on-campus courses)	<p>To assist overseas compatriot students in the program, six Chinese language courses are offered:</p> <ul style="list-style-type: none"> • Chinese Listening and Speaking I & II • Chinese Reading and Writing I & II • Chinese Language Support • Chinese Listening and Speaking III <p>— These courses are categorized into A1 and A2 classes based on Chinese language proficiency. Teaching staff consist of one full-time Chinese language instructor from the university and five adjunct instructors to assist with course delivery. Efforts are ongoing to recruit more talent to contribute to the program</p>

Internship	<p>1.Period and Working Hours: Off-campus internships begin in the second year, with students working three days per week or approximately 24 hours per week.</p> <p>2.Internship allowance and benefits:</p> <ul style="list-style-type: none"> ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hours. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits : Benefits vary by company: <ul style="list-style-type: none"> • Greatek Electronics Inc.: Accident insurance, performance bonuses, year-end bonuses, etc. • Yuan Jheng: Accident insurance; holiday bonuses (three major festivals) are provided based on company performance and individual work performance. • Kenturn: Group insurance, free lunch, year-end bonuses, etc. <p>3. Institution: 2025 partner companies include Greatek Electronics Inc., Yuan Jheng and Kenturn.</p> <p>Note: The 2025 partner companies are for reference only. Future partners for the 2026 academic year will be determined based on agreements at that time.</p>		
Work-study During Semester	<p>Students who wish to work in Taiwan (either on or off campus) are required to apply for and obtain a work permit before starting work. Except for the winter and summer vacations, students' total working hours may not exceed 20 hours per week.</p>		
Employment Counseling	<p>1.Online Job Fair(https://events.104.com.tw/ocac/20230412114938/)</p> <p>2.Career counseling seminars offered in 4th year.</p> <p>3.We are inviting partner internship companies to attend a retention promotion meeting, with the aim of encouraging them to retain their former interns as full-time employees.</p>		
Further Education After Graduation	<p>Graduates of this program can sit Master's degree entrance exams of other universities in accordance with relevant regulations, such as programs in AI, computer science, electrical engineering, electronic engineering, and data science, etc.</p>		
Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). 		

- Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - Emergency Aid: Provided on a case-by-case basis.
- 2. Scholarship and subsidies provided by the University:**

Item	Amount	Eligibility requirements
Financial Aid for Underprivileged Students	NT\$25,000 per semester	For the first semester, students in this program who qualify as low-income and pass the review (limited quota) will receive financial aid. Starting from the second semester, students must complete registration and pay tuition and miscellaneous fees. They must also meet the following two requirements based on their performance in the previous semester to continue receiving aid: 1. During their time in the Overseas Youth Program, students must achieve an average academic grade of 60 or above in the previous semester, and have failed no more than half of the courses. 2. A conduct score of 80 or above is required, with no warnings or higher disciplinary action.

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	16,485	10,544	1,020	13,000 (Including dormitory internet fees, excluding winter and summer vacations)	41,049 (Actual payment 24,564)
1 st year Second semester (The amount after deducting OCAC grant)	16,485	10,544	5,976	13,000 (Including dormitory internet fees, excluding winter and summer vacations)	46,005 (Actual payment 29,520)
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	16,485	10,544	10,932	13,000 (Including dormitory internet fees, excluding winter and summer vacations)	50,961 (Actual payment 34,476)
3 rd to 4 th year (Amount per semester)	16,485	10,544	10,932	13,000 (Including dormitory internet fees, excluding winter and summer vacations)	50,961

*Note:

- The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees. (In the 1st and 2nd year, the university will first collect tuition fees, then refund the amount of subsidy from the Overseas Community Affairs Council to the student's account).
- In the first and second academic years, the school will first collect the tuition fees and then refund the OCAC subsidy to the student's account.
- Other fees:
 - Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums

	<p>TWD826 per month. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Kun-Shan University		
Program	Department of Information Management		
Program Description	<p>The primary objective of this program is to cultivate students' skills in multimedia web development and digital marketing, preparing them to become key professionals in online marketing channels between enterprises. Students will learn to provide businesses with consumer preference insights and work collaboratively with online platforms to achieve marketing and transaction goals. Upon completion of the program, graduates can return to their hometowns to develop careers in information networking, web design, online marketing, and e-commerce, while also gaining the foundational technical skills required for future integration into enterprise-level learning and development.</p>		
Graduate Career Development	Software Developer, Marketing Planner, Web Developer, Digital Marketing Specialist, Web Designer, Advertising Copywriter		
Mandarin courses (online or on-campus courses)	<p>1.The Chinese language courses offered in the Overseas Youth Vocational Technical Training Program are designed according to students' proficiency levels. For those with limited Chinese proficiency, the Chinese Language Center additionally provides diversified, leveled Chinese remedial classes twice a week, with the aim of strengthening their language competence.</p> <p>2.To enhance students' Chinese ability, peer tutors are assigned as "Chinese language mentors" to provide one-on-one after-class tutoring. This initiative not only assists students in improving their Chinese proficiency but also enhances their motivation and interest in keeping learning the language.</p>		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u></p> <ol style="list-style-type: none"> 1. Chinese Reading and Expression(I)~(IV) 2. Green Living Practice (I)~(II) 3. Career Development and Work Ethics 4. English Proficiency Examination 5. School-designated Liberal Education(I)~(IV) 6. Physical Education(I)~(II) 	<p><u>Professional Courses Required</u></p> <ol style="list-style-type: none"> 1. Introduction to Computer Network 2. Web Design 3. Database Management System 4. Career Exploration 5. Business Software Package Basic Programing 6. Management 7. Data Analysis and Visualization 8. Academic Ethics 9. Practical Seminar(I)~(III) 10. Professional Credits <p><u>Elective</u></p> <ol style="list-style-type: none"> 1. Proposal Writing and Presentation 2. System analysis and design 	<p><u>Internship and practical Courses Required</u></p> <ol style="list-style-type: none"> 1. Digital Photography and Digital Image Process 2. Big data analysis 3. E-commerce internship(I) ~(II) <p><u>Elective</u></p> <ol style="list-style-type: none"> 1. e-Book Practice 2. Digital video editing 3. Surrounding system design 4. Web Design & Management 5. 			10. Marketing Management 11. Innovative Copywriting 12. Social platform advertising and marketing 13. Consumer Behavior 14. Electronic Commerce 15. supply chain management 16. Logistics & production and marketing 17. Online auction practice 18. ERP for Distribution Module 19.ERP Application Engineer for Manufacturing Module 20. Data Mining 21. Corporate internship(I)~(IV) 22. Cross-border e-commerce practice
Internship	<p>1. Off-campus internships are conducted from the 2nd to 4th school year, with approximately 5 internship days per week. The maximum internship hours are up to 40 hours per week.</p> <p>2. Internship allowance and benefits:</p> <p>■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hour or by month. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month.</p> <p>■ Benefits : Company-provided meals, year-end bonus, bonuses for traditional holidays, birthday gifts, etc. The exact benefits may differ depends on the internship company's policies.</p> <p>3. Internship Institutions: Liyang International E-Commerce Co., Ltd., Hongtai Information Technology, Yingtong International Co., Ltd., Honglun Technology Co., Ltd., PX Mart Co., Ltd., and FamilyMart Co., Ltd.</p>		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ol style="list-style-type: none"> 1. University-sponsored job matching channels 2. Internship agency talent retention mechanisms 3. The Overseas Chinese Affairs Commission's "Global Taiwanese Business Talent Platform" (https://Talents.Taiwan-World.net) assists in job matching. 4. The Overseas Chinese Affairs Commission's Overseas Credit Guarantee Fund provides startup loans. 		
Further Education After Graduation	Graduates of this program are qualified to apply for the university's master's programs in management and marketing disciplines, including the Master's Program in Information Management.		
Scholarships and Financial Aids	<ol style="list-style-type: none"> 1. The OCAC provides the following grants and subsidies: <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) 		

- Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - Emergency Aid: Provided on a case-by-case basis.
- 2. Scholarship and subsidies provided by the University:**
- Scholarship :
 - **First Year:**
 - Full tuition and miscellaneous fees will be waived.
 - **Second, Third, and Fourth Years (each year provides):**
 1. Full scholarship for students ranked in the top 20% of the class: TWD 52,206 per student per semester (based on the actual tuition and fee standards of Academic Year 115).
 1. Elite scholarship for students ranked 21%–50% of the class: TWD 20,000 per student per semester.

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Jinwen University of Science and Technology
Program	Department of Travel Management
Program Description	<p>The Department of Tourism is distinguished by its unique strengths:</p> <ol style="list-style-type: none"> 1. Global outlook and international engagement 2. Interdisciplinary learning to foster innovative talent 3. Strong industry–academia collaboration with hands-on professionalism 4. Experiential learning opportunities and smart tourism initiatives 5. Cutting-edge academic research with integration of AI 6. A vibrant variety of activities that enrich university life 7. Holistic education that opens pathways to a successful future. <p>Our curriculum is designed to equip students with both knowledge and practical skills, covering core courses, specialized professional training, applied practice, internship programs (domestic and overseas), and international courses.</p>
Graduate Career Development	<p>This department aims to cultivate talents in the leisure and tourism industry with a global vision and international mobility. The courses cover various fields such as tourism, leisure, resorts, hospitality, and food and beverage industries. The features of the program include:</p>
Mandarin courses (online or on-campus courses)	<p>Tour guides for rare languages, passenger service staff, interpretive guides, bed and breakfast hosts, theme park service staff.</p> <p>Cruise line, airport ground services, resort or vacation hotel staff, leisure farm service staff, and travel industry personnel, Housekeeping Management, Food and Beverage Service and Management</p>
Chinese Language Courses (online or on-campus courses)	<ul style="list-style-type: none"> ● First- and second-year Chinese courses include: <ul style="list-style-type: none"> ◆ Basic Chinese (I) ◆ Basic Chinese (II) ◆ Reading and Writing (I) ◆ Audio-Visual Chinese (I) ◆ Reading and Writing (II) ◆ Audio-Visual Chinese (II) ● During the first semester of the first year, the focus is on establishing a foundation for communication in Chinese, with an emphasis on listening and speaking skills. The second semester focuses on grammar, recognizing Chinese characters, understanding specialized terminology, and professional workplace etiquette. It enhances students' reading and writing abilities, establishing a comprehensive learning approach covering listening, speaking, reading, and writing. ● In the second year, the courses focus on adapting to life in Taiwan and improving professional skills based on social environment and work or internship needs. ● In addition, during the Chinese language learning process, students will be introduced to the customs and traditions of the Chinese-speaking world and participate in cultural activities to gain deeper insights into the appropriate use of the language in real-world contexts. ● The Chinese language curriculum also offers supplementary courses to prepare students for the TOCFL (Test of Chinese as a Foreign Language), providing enhanced content based on students' levels to continually improve their language skills.

<p style="text-align: center;">Professional and Technical Training Courses (including internship subjects)</p>	<p><u>General Courses</u> 1. Basic Chinese (I) 2. Basic Chinese (II) 3. <p>Internship</p>	<p>1. Period and working hour: Conducted in the fourth year, five days a week, with approximately 40 hours per week.</p> <p>2.</p>	<p>(1) In accordance with the Labor Standards Act, the stipend is calculated based on the minimum hourly wage of NT\$190 and is paid on a monthly basis. Based on the statutory</p>	

	<p>maximum of 40 regular working hours per week, the minimum monthly remuneration for labor services during the internship is NT\$28,590.</p> <p>(2) Benefits: Benefits are provided according to the policies of each internship provider and may include employee meals, year-end bonuses, holiday bonuses, birthday gifts, and other incentives.</p> <p>3.Internship Organizations: FDC International Hotels and Resorts Taipei Branch Volando Urai Spring Spa & Resort Howard Civil Service International House Pause Landis Resort Wulai HONE SHEE INTERNATIONAL TRAVEL SERVICE CO.,LTD Lion Travel Service Co., Ltd Platinum Hotel Limited Company TTFB company limited Taoyuan International Airport Services Co., Ltd. Kamalan Bus Inc.</p> <p>4.The university will provide group accident insurance for students participating in off-campus internship programs.</p>
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>
<p>Employment Counseling</p>	<p>1.In coordination with our academic program, we will conduct the following employment counseling activities:</p> <ol style="list-style-type: none"> (1) Organize seminars on "Employment Service Laws and Workers' Rights Advocacy." (2) Conduct training sessions on "Labor Regulations and Workplace Etiquette." (3) Arrange visits and experiences in the field with activities such as "Internship and Workplace Experience Visits" to places like Baishisen Organic Farm, Zhuo Ye Cultural and Tourist Landscape Co., Ltd., Purple Forest Lodge Co., Ltd., and Toucheng Leisure Farm Co., Ltd. (4) Host "Internship Company Matching Information Sessions." (5) Provide training on "Internship Workplace Safety." (6) Organize "Internship Experience Sharing" sessions. (7) Facilitate "Employer Roundtable Discussions." (8) Hold a "Campus Employment and Recruitment Fair" exclusively for international students. (9) Host "Entrepreneurship Panel Discussions." (10) Conduct "Evaluation-Based Employment Guidance Seminars" to help students find employment opportunities in Taiwan. <p>2.Talent Retention Mechanism for Internship Institutions Internship institutions will refer to the following performance indicators to selectively retain outstanding interns:</p> <ol style="list-style-type: none"> (1) Supervisor Evaluation: <ol style="list-style-type: none"> i. Whether the intern meets the professional knowledge and skill requirements for the position. ii. Whether the intern demonstrates responsibility, proactivity, and resilience in their work attitude. iii. Attendance, interactions with colleagues, and other aspects during the internship period. (2)Re-interview**: This includes salary adjustments, relevant benefits, and retention of seniority accumulated during the internship.

<p style="text-align: center;">Further Education After Graduation</p>	<p>一、 Graduates of this program are eligible to apply for master's programs in tourism, hospitality, and management at various universities in accordance with relevant regulations. Examples include:</p> <ul style="list-style-type: none"> • <i>Master's Program in Tourism and Hospitality Management, Department of Tourism Management, Jinwen University of Science and Technology</i> • <i>Master's Program in Southeast Asian Area Studies, National Taipei University of Education</i> <p>二、 Dual-degree programs or sister school collaborations with overseas institutions.</p>																	
<p style="text-align: center;">Scholarships and Financial Aids</p>	<p>1. The Overseas Community Affairs Council provides the following grants and subsidies:</p> <ol style="list-style-type: none"> (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of 20,000 TWD.) (2) Excellence Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in the National Health Insurance Program). (4) Healthcare: Every student is required to enroll in the National Health Insurance Program and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413) . (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. (6) Emergency Aid: Provided on a case-by-case basis. <p>2. Scholarship and subsidies provided by the University:</p> <table border="1" data-bbox="391 1305 1509 1715"> <thead> <tr> <th>Item</th> <th>Amount</th> <th>Eligibility requirements</th> </tr> </thead> <tbody> <tr> <td>Academic Scholarship</td> <td>NT\$1,500 to NT\$4,000</td> <td>Awarded from the 2nd semester onward to the top three students in each class, according to the university's guidelines.</td> </tr> <tr> <td>Certification Incentive Grant</td> <td>aries based on certification level</td> <td>Granted to students who obtain certifications during their studies.</td> </tr> <tr> <td>External Academic and Sports Competition Grant</td> <td>NT\$8,000 to NT\$40,000</td> <td>Calculated based on competition type and ranking.</td> </tr> </tbody> </table>						Item	Amount	Eligibility requirements	Academic Scholarship	NT\$1,500 to NT\$4,000	Awarded from the 2nd semester onward to the top three students in each class, according to the university's guidelines. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	JinWen University of Science and Technology
Program	Department of Information and Communication Engineering
Program Description	<p>1. The primary goal of this program is to strengthen students' fundamental academic abilities and professional technical training. In line with the current status and future trends of information and communication products, artificial intelligence, and the Internet of Things, as well as the development of communication technology and digital multimedia.</p> <p>2. In the field of information technology, the department is centered on the applications of artificial intelligence (AI), with courses covering topics such as machine learning and generative AI. Several faculty members hold national-level certifications in artificial intelligence. In the field of communications, the department focuses on 5G communication measurement, offering courses that include the Internet of Things (IoT), Radio-Frequency Identification (RFID), and related subjects, and is equipped with a nationally certified RF antenna measurement laboratory.</p> <p>3. The curriculum emphasizes cultivating advanced information and communication engineering professionals with both theoretical knowledge and practical skills. The program objectives are as follows: (1) To cultivate professionals in radio communication. (2) To cultivate professionals in information applications. (3) To cultivate professionals in signal processing. (4) To cultivate ICT professionals with innovative learning abilities.</p>
Graduate Career Development	<p>Career Prospects</p> <p>Students in this department specialize in two major fields: information systems and mobile communications—both of which are leading industries driving Taiwan's economic growth in recent years. Upon graduation, students may pursue careers in positions such as:</p> <ol style="list-style-type: none"> 1. Communication Software Engineer 2. Communication Hardware Engineer 3. Wireless Communication Systems Engineer 4. Communication Systems Maintenance Engineer 5. Communication Protocol Engineer 6. Antenna Engineer 7. Embedded Systems Design Engineer 8. Microwave Testing Engineer 9. RF Engineer 10. Computer Software Engineer 11. Computer Hardware Engineer 12. Information Systems Management Engineer 13. Computer, Peripheral, and Systems Maintenance Engineer 14. Software/Firmware R&D Engineer 15. Software/Firmware Testing Engineer
Mandarin courses (online or on-campus courses)	<p>Mandarin Curriculum</p> <ol style="list-style-type: none"> 1. From the first to the second year, the Mandarin curriculum includes: <i>Fundamentals of Mandarin (I)</i>, <i>Fundamentals of Mandarin (II)</i>, <i>Reading and Writing (I)</i>, <i>Audio-Visual Chinese (I)</i>, <i>Reading and Writing (II)</i>, and <i>Audio-Visual Chinese (II)</i>. <ul style="list-style-type: none"> o In the first semester of the freshman year, the focus is on building a foundation in Mandarin communication, particularly listening and speaking skills.

	<ul style="list-style-type: none"> ○ In the second semester, students will further develop their understanding of Mandarin grammar structures, learn Chinese characters, and acquire professional terminology. The course also integrates workplace expressions and etiquette, enhancing reading and writing skills to achieve balanced training in listening, speaking, reading, and writing. ○ From the sophomore year onward, courses are designed to strengthen students' adaptability to daily life in Taiwan, while also improving professional skills in line with social, workplace, or internship needs. <p>Additionally, cultural elements are integrated throughout the Mandarin learning process. Students are introduced to Chinese customs and traditions and participate in cultural and festive activities, allowing them to experience authentic usage of Mandarin in real-life contexts.</p> <p>2. Furthermore, the program offers supplementary courses to prepare students for the Test of Chinese as a Foreign Language (TOCFL) at different proficiency levels. Instruction is tailored to students' abilities, with the goal of continuously enhancing their Mandarin proficiency.</p>

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Vanung University		
Program	Department of Interior Design and Civil Engineering		
Program Description	<p>Teaching Philosophy & Curriculum Overview The program cultivates professionals in on-site construction by combining computer tool applications, surveying, and spatial planning, bridging academia and industry for “employment upon graduation.” It nurtures talents with design aesthetics, engineering skills, and global perspectives, especially for overseas students aiming for interior space planning, construction management, and related fields. Core principles: balancing theory and practice and integrating creative design with engineering technology. Industry internships and professional training equip students with comprehensive skills in interior design and construction technology.</p> <p>Interior Design Courses: Design principles, color schemes, material applications, furniture and lighting planning, and spatial aesthetics. Training in hand-drawing and CAD software (SketchUp, Revit) develops conceptualization and drafting skills for independent project completion.</p> <p>Construction Technology & Management Courses: Building structures, construction drawings, methods, procedures, and building systems (electrical, green building). Includes BIM, sustainable architecture, and smart building technologies. Industry internships provide hands-on experience throughout the project lifecycle, preparing students for careers or entrepreneurship.</p>		
Graduate Career Development	Graduates may pursue roles such as: Interior Designer, Renovation Technician, Project Manager, Construction Supervisor, Engineering Consultant, Materials R&D Engineer, Landscape Planner, Real Estate Agent, Public Sector Officer, Construction Engineer, Electrical & Mechanical Technician, and other professional positions related to the interior design and construction industries.		
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> The university has a Ministry of Education-certified Chinese Language Center. First-year students take formal Chinese courses (6 credits, 8 hours/week) in both semesters, with support to register for the TOCFL (Test of Chinese as a Foreign Language) group exam to enhance proficiency and obtain official certification. Practical Chinese courses (I–IV) are systematically designed by the Chinese Language Center to guide students’ learning paths and help them achieve higher-level Chinese proficiency certification (TOCFL). Courses are structured around three components: Taiwanese Culture (in-person classes), Cultural Experiences (Experiential classes), Certification Guidance (Practical training), ensuring students achieve learning goals in daily life, coursework, and future industry internships. 		
Professional and Technical Training Courses (including internship subjects)	<p>General Courses</p> <ol style="list-style-type: none"> Regulations Related to Architecture and Interior Design (Theory) Understanding and Application of Decorative Materials (Theory) Computer-Aided Drawing I (Practical) Computer-Aided 	<p>Professional Courses</p> <p>Required</p> <ol style="list-style-type: none"> Engineering Mechanics Construction Methods Engineering Management <p>Elective</p> <ol style="list-style-type: none"> Reinforced Concrete Design Soil Mechanics Foundation Engineering Green Building Blueprint Reading and 	<p>Internship and practical Courses</p> <p>Required</p> <ol style="list-style-type: none"> Contracts and Specifications Government Procurement Law Industry Internship <p>Elective</p> <ol style="list-style-type: none"> Mass Rapid Transit Engineering Construction Supervision

Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program (OYVTP)
Admission Prospectus for the 2026 Academic Year

School	Overseas Chinese University		
Program	Department of Hotel and MICE Management		
Program Description	The Department of Hotel and MICE Management aims to develop students' ability to serve as first-line managers in the professional service industry. The program is designed to develop students' professional skills, including communication skills, problem solving/analyzing skills, and customer service skills. We aim to elevate students' practical skills and cultivate talents that meet domestic and international industry demands for the service industry.		
Graduate Career Development	Hotel and convention-related industries: Front desk reception, guest services, housekeeping, food and beverage service, wedding planning, leisure services, gyms, beauty salons, incentive travel, tour guides, digital marketing, event planning, exhibition customer service, etc. Research institutes in tourism, hospitality, leisure, and business management		
Mandarin courses (online or on-campus courses)	This program offers a 2-credit, 4-hour "Elementary Chinese Certification" course in both the first and second semesters. The content will be tailored to the students' level, providing a Chinese language curriculum tailored to each student's learning needs. An extracurricular "Elementary Chinese Certification Tutoring" course will also be offered during the first year to improve students' listening, speaking, reading, and writing skills. The course content and pace will be adjusted to suit each student's level and learning progress. Regular Chinese language screening tests will be administered to help teachers and students track their Chinese language learning progress. The goal for the first year is to help students pass the Test of Chinese Language Proficiency (TOCFL) A2.		
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> 1. Chinese 2. Physical Education 3. Elementary Chinese Certification(I) 4. Elementary Chinese Certification (II) 5. Workplace English (I) 6. Workplace English (II) 7. General Education-Taiwan Tourism Industry 8. General Studies-Taiwan History and Culture 9. General Education-Taiwan Ecological Environment 10.General Studies-Taiwan Religious Art	<u>Professional Courses Required</u> 1. Hotel Chain Management 2. Hotel Housekeeping Management and Practice 3. Sustainable Development for Tourism and Hospitality Industry 4. Office Software Applications 5. Managing Front Office Operations 6. Catering Practice 7. Introduction to Casino 8. Introduction to MICE industry 9. MICE Practice 10. Casino Operation Management 11. Hospitality Marketing Management 12. Hotel Information Systems 13. Internship	<ol style="list-style-type: none"> Off-campus internships are conducted from the second year to fourth year, with approximately 3 internship days per week. The maximum internship hours are up to 18 hours per week. Internship allowance and benefits: <ul style="list-style-type: none"> ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hour. The minimum wage in 2025 is TWD190 per hour. When calculated on a monthly basis, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits : Employee meals, year-end bonuses, three festival bonuses, birthday prizes, etc. (Benefits vary depending on the internship company's policy) <p>Collaborating Institutions: Windsor Hotel Taichung, InterContinental Taichung, Evergreen Hotel Taichung, Howard Plaza Hotel Taichung, Freshfields Hotel Taichung, The Lin Hotel, Splendor Hotel-Taichung, Hotel Zhong ke, KUN Hotel, Golden Tulip Zhongxin Hotel, IN SKY HOTEL, In Sky International Buffet, IN ONE CITY INN, IN JOY HOTEL, Louwailou, Xiao Huochun, Xiao Huochun Chongde Second Store, Royal Thai Massage Group</p>		
Work-study During Semester	<p>After obtaining work permits in Taiwan, students may start to work part-time. Students are limited to work a maximum of 20 hours per week. But there are no restrictions regarding working hours in the summer and winter vacations.</p>		
Employment Counseling	<ol style="list-style-type: none"> The Overseas Community Affairs Council assists with job matching through the "Global Talent Platform for Overseas Chinese and Taiwanese Businessmen" (https://Talents.Taiwan-World.net). The Overseas Community Affairs Council's Overseas Credit Guarantee Fund provides loans for starting a business. Our school provides internship opportunities: the internship industry (for example, Royal Thai Massage) is committed to process standardization and high-quality service. The professional talents that the company requires highly align with the educational objectives and core competencies of our department. For practical/internship courses, the program invites professional teachers from the department and industries to develop students' practical skills and employability. Furthermore, the program assists students to work in their original organizations or the related companies. 		
Further Education After	<ol style="list-style-type: none"> After obtaining bachelor's degree, students may study for a master's degree at Overseas Chinese University or other universities, such as tourism, hospitality, leisure and business management research institutes. 		

Graduation	2. Students may study further at partner schools which have agreements with our school such as Pittsburg State University, Sapporo Gakuin University, Aomori Chuo Gakuin University, Middlesex University.																								
Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). ● Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. <p>2. Scholarship and subsidies provided by the University:</p> <ul style="list-style-type: none"> ● Bursary for Overseas Students: students who apply for this bursary successfully may receive TWD 3,000 monthly for 10 months in one academic year (https://ia.ocu.edu.tw/var/file/13/1013/img/697/663909119.pdf) ● Scholarships: After admission, students can apply for various scholarships and grants from the university, local governments, and foundations. These are announced regularly on the university's Academic Affairs Office website: https://life.ocu.edu.tw/p/412-1028-4416.php?Lang=zh-tw. ● Merit Scholarship for Academic Excellence: Students whose semester academic average and conduct grade both reach 80 or above are eligible. Scholarship recipients are determined based on the proportion of qualified students within the class for that semester. 																								
Tuition and Fees(TWD)	<p>1. School fees Fees are the same as for domestic students. The Overseas Community Affairs Council subsidizes TWD 20,000 per semester for the first two years of the program. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Deh Yu College of Nursing and Health		
Program	Department of Sports, Health and Leisure (Tourism, Health and Leisure Service)		
Program Description	<p>Our department aims to cultivate professionals for the tourism, health, and leisure service industries, focusing on two main areas: tourism services and health/leisure services. With a development focus on integrating theory and practice into teaching, we also incorporate the United Nations Sustainable Development Goals (SDGs) as a key feature. This enables students to acquire professional competencies in tourism and health/leisure services, along with sustainability literacy and innovative thinking. This program emphasizes practical courses while also incorporating theoretical courses, language training, general education, on-campus hands-on training, and off-campus internships. The curriculum is designed to cultivate students into professionals in the global tourism, health, and leisure service industries. We aim to equip students with professional knowledge and skills, preparing them to become specialists in the domestic and international tourism, health, and leisure sectors.</p>		
Graduate Career Development	Tour Guide, Tour Leader, Travel Agency Planner, Hotel Management, Amusement Park, Health Manager, Fitness Coach		
Mandarin courses (online or on-campus courses)	<p>Students with insufficient Mandarin proficiency are provided with appropriate courses such as 'Chinese Reading and Critical Thinking', 'Chinese Application and Expression', 'Conversational Chinese for Tourism and Leisure Services (Part 1)', 'Conversational Chinese for Tourism and Leisure Services and Writing (Part 1)', 'Conversational Chinese for Tourism and Leisure Services (Part 2)', and 'Conversational Chinese for Tourism and Leisure Services and Writing (Part 2)' by the Mandarin Center and the General Education Center.</p>

<p style="text-align: center;">Internship</p>	<p>1. The internship courses for this program are arranged in the second, third, and fourth years of study:</p> <ul style="list-style-type: none"> ● There are a total of 30 credits for the off-campus internship course, of which 15 credits are elective. Each semester consists of 5 credits, with a weekly internship of 20 hours, totaling 360 hours over an 18-week semester. ● Professional internships (I) to (III) are required courses scheduled for the second and third years, primarily aimed at developing students' basic workplace communication, digital tool operation, industry standards knowledge, and customer service skills. ● Advanced internships (I) to (III) are elective courses scheduled for the third and fourth years, further enhancing students' adaptability, management decision-making abilities, market analysis, and the application of technological innovation and other advanced skills. If students choose not to participate in the internship, they may select 2 professional elective courses each semester to replace the internship credits for that semester, ensuring diversity and flexibility in their learning content. <p>2. Internship stipend and benefits:</p> <ul style="list-style-type: none"> ■ Internship Stipend: All internship courses in this program provide a stipend based on the hourly wage standard set by the Ministry of Labor, at TWD 190 or more per hour. ■ Benefits: Living allowances and other welfare benefits for students will be handled in accordance with the relevant regulations of the internship institution. <p>3. <p style="text-align: center;">Work-study During Semester</p>	<p>Aside from the internship course, if a work permit is obtained in Taiwan, students may work up to 20 hours per week during the semester; there are no limits during winter and summer breaks.</p>																																	
<p style="text-align: center;">Employment Counseling</p>	<p>1. Internship and Employment Seminars and Guidance: Our school's International Division invites experts from the Ministry of Labor, industry professionals, and internship companies every semester to hold multiple employment guidance seminars. These include explanations of internship employment matching and assessment systems, allowing students to obtain relevant certifications and qualifications during their time in school.</p> <p>2. Talent Retention Mechanism for Internship Organizations: The certification guidance mechanism for our department's students is as follows: we organize guidance courses for obtaining certifications, including advice on certification examinations, promotion, registration, assessment, and assistance with subsidy-related matters. Additionally, there are relevant guidance mechanisms, where the course planning pri-</p>																																	

	<p>marily focuses on content related to tourism, leisure, and health certification examinations as part of the syllabus, with after-class strengthening courses available to help students obtain various related certifications.</p> <p>3. To encourage students to obtain professional certifications, students are required to earn three certifications before graduation, which is a graduation threshold for day program students in the four-year technical program. Among these, CPR certification is mandatory, and the other two should focus on tourism leisure and sports health. Passing the certification examinations helps enhance professional skills and increases willingness to engage in employment within the tourism and leisure sectors. The main certifications obtained by our students include: CPR certification, airline ticketing, fitness assessment, travel itinerary designer, English proficiency testing, ICDL computer skills certification, and more.</p>																								
<p>Further Education After Graduation</p>	<p>Graduates of this program can participate in admission examinations for master's programs related to health industry management, tourism and leisure management, leisure business management, or sports health and leisure in various schools, in accordance with relevant regulations. For example: master's programs in tourism and leisure management, hospitality management, and sports health and leisure.</p>																								
<p>Scholarships and Financial Aids</p>	<p>1.The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> ● The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) ● Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. ● Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). ● Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). ● Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. ● Emergency Aid: Provided on a case-by-case basis. <p>2.Scholarship and subsidies provided by the University:</p> <ul style="list-style-type: none"> ● A scholarship of TWD 25,000 is awarded to cover tuition and related fees for the first semester.

***Note:**

1. The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees. Tuition and fees are charged in accordance with the standards for day program students, calculated on a per-semester basis (subject to adjustments as announced by the university).
2. Other fees: (Based on actual charges)
 - Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month. Students who have proof of economic hardship (or financial difficulty document) only pay 50 % of the insurance premiums.
 - Books : Book Fees: Approximately TWD 3,000 per semester.
 - Teaching materials : Material Fees: Approximately TWD 3,000.
 - Computer usage : If there are computer-related courses taken during the semester, it is TWD 650 for that semester.
 - Internet usage : TWD 300 per semester
 - Group insurance : TWD 723 per semester
3. Accommodation fee:
 - (1) The male dormitory is TWD 8,000 per semester (shared by 5 students, with communal bathroom facilities), and the female dormitory is TWD 11,000 per semester (shared by 4 students, with en-suite bathroom). A security deposit of TWD 1,000 is required. (The deposit will be refunded after the dormitory check-out process is completed.)
The above fees include utilities and internet access. Additional charges apply for air conditioning usage exceeding the allocated quota.
 - (2) During winter and summer breaks, the dormitory fee is TWD 800 per week.
The above fee includes utilities and internet access. Additional charges apply for air conditioning usage exceeding the allocated quota.
2. Living expenses (estimated) : TWD 6,000-7,500 per month
3. Additional charge: (Additional Fees (Based on actual charges)
 - (1) License Examination Fees: Approximately TWD 6,000.
 - (2) Health Examination Fee: Approximately TWD 1,000.
 - (3) Residence permit application fee: NT\$500 per year (applicable only to residence visas, subject to government-approved rates).
 - (4) Work permit fee: NT\$100 per application (subject to government-approved rates).

<p>Internship</p>	<p>1. Off-campus internships are conducted from fourth year to fourth year, with approximately 5 internship days per week. The maximum internship hours are up to 40 hours per week.</p> <p>2. Internship allowance and benefits:</p> <ul style="list-style-type: none"> ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hourly or monthly. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits : Actual benefits are provided according to each internship company's policy, which may include staff meals, year-end bonuses, holiday bonuses, birthday gifts, etc.. <p>3. Institution: PChome Online Inc., Taiwan Distribution Center Co., Ltd., Maersk Contract Logistics (Taiwan) Ltd., HCT Logistics Co., Ltd.</p>		
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
<p>Employment Counseling</p>	<p>1. The department organizes internship placement events, inviting companies to the campus to conduct internship interviews in order to match students with suitable opportunities. After students begin their internships, the department also assigns</p>		

	<p>faculty advisors to visit the host companies, meet with both the company supervisors and the interns, address any issues that arise, and provide enhanced guidance.</p> <ol style="list-style-type: none"> The university is committed to narrowing the gap between academic learning and workplace application. Through curriculum mapping, internship track mechanisms, and the corporate mentorship system, students are guided to identify clear career directions. In the third year, the “Graduation Seminar” course invites alumni to share workplace experiences, thereby strengthening students’ career planning capabilities. Since the 2016 academic year, all departments have designated “Professional Internship” as an 18-credit required course, using off-campus internships to enhance workplace adaptability. The university also provides a variety of career counseling services, including individual consultations, guidance on résumé and cover letter writing, interview skills training, corporate information sessions, on-campus job fairs, and preparatory courses for civil service examinations, to comprehensively improve students’ employability. Internship retention mechanism: Companies evaluate students based on their internship performance, and those who perform well are offered retention opportunities and may be converted to full-time positions. 																		
<p style="text-align: center;">Further Education After Graduation</p>	<ol style="list-style-type: none"> Graduates of this program can take master's entrance exams at various universities in accordance with relevant regulations, such as the Master’s Program in Wealth and Tax Management at this university or the Graduate Institute of Business Administration at other universities. Students of this program can apply for dual degree programs offered by the school and overseas partner universities or continue their studies at partner universities after graduation in accordance with regulations. <p>Students in this program may apply, in accordance with the relevant regulations, for dual-degree programs jointly offered by this university and its overseas partner institutions in the United States, the United Kingdom, Korea, and Singapore, or may choose to continue their studies at a partner institution after graduation. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Shu-Te University
Program	Department of Esports and E-entertainment Science
Program Description	<p>AI + E-commerce + Digital Entertainment = The Future Hub for Golden Talent!</p> <p>In response to the rapid global development of the digital economy and industrial transformation, this program focuses on the "Smart Business and Entertainment" industry. We integrate smart business and e-commerce operations, AI and data science applications, and new media applications like XR and digital entertainment content. Our goal is to cultivate a new generation of AI business talent with a blend of business strategy, AI data analysis, and digital content creation skills.</p> <p>2025: The First Year of AI Business</p> <p>Here, your brain makes the decisions, and AI acts as your hands and feet! It helps you with analysis, creation, and marketing, ushering in a new era of smart business and entertainment. Join us and become the next smart business elite leading the digital trend!</p>
Graduate Career Development	<ol style="list-style-type: none"> 1. AI Application Planner 2. New Media Marketing Manager 3. E-commerce Operations Specialist 4. Digital Marketing Planner 5. Tong Lian Mobile Creative Technology Co., Ltd.			
Work-study During Semester	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
Employment Counseling	<p>1. During their third year, students will be provided with information regarding further education and career counseling. This includes details and dates for graduate school entrance exams, such as for full-time master's programs, to assist students who wish to pursue advanced degrees. For career guidance, we will hold job fairs specifically for our students, offer resume writing workshops, and conduct career aptitude sessions to help those planning to stay in Taiwan understand the current job market trends.</p> <p>2. Partnering companies have a retention policy for interns. Students who perform exceptionally well during their internship will be considered for a full-time position upon graduation.</p>		
Further Education After Graduation	<p>1. Upon graduation, students from this program will possess integrated, cross-disciplinary skills in smart business, data analysis, and digital content creation, providing them with a wide range of options for further study. They can apply to well-known master's programs both domestically and internationally in the following fields, based on their personal interests:</p> <p>(1) Business and Management: Including master's programs in Business Administration, Information Management, Technology Management, Marketing and Logistics Management, and Innovation Management. Department of Cultural and Creative Industries, National Pingtung University</p>		

- (2) Design and Communication: Including master's programs in Interactive Design, Digital Media Design, Information and Communication, New Media, and Applied Arts.
- (3) Information Technology: Including master's programs in Data Science, Artificial Intelligence, Information Engineering, and Software Engineering.
- (4) Other Related Fields: Including master's programs in Sports Science (focusing on e-sports science or data analysis), Graphic Communications, and Digital Learning Technology.
2. Students of this program can apply for dual degree programs offered by the school and overseas partner universities or continue their studies at partner universities after graduation in accordance with regulations.

Country	Partner university offered dual degree program

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Shu-Te University
Program	Department of MICE Marketing and Event Management
Program Description	<p>Our department is dedicated to cultivating mid-level management and marketing professionals in the MICE (Meetings, Incentives, Conferences, and Exhibitions) and events industry. Our core approach is "Professionalism × Hands-on Experience × Internationalization" to equip students with a global perspective and innovative creativity. We provide solid vocational training and professional skill development, focusing on four key areas:</p> <ol style="list-style-type: none"> 1. Balancing Theory and Practice: We integrate theoretical courses with practical, hands-on projects both on and off campus to build both professional knowledge and practical skills. 2. Industry-Academia Collaboration: Through industry internships and project-based training, we strengthen students' professional experience and competitiveness in the job market. 3. Internationalized Learning: We incorporate English-taught courses and cross-cultural exchanges to broaden students' global horizons. 4. Sustainability and Social Responsibility: In alignment with the UN's Sustainable Development Goals (SDGs) and University Social Responsibility (USR), we emphasize green MICE and sustainable development. <p>Our ultimate goal is to ensure students acquire professional skills, management intelligence, and innovative thinking during their studies, enabling them to smoothly transition into industry demands and workplace challenges.</p>
Graduate Career Development	<ol style="list-style-type: none"> 1. MICE/Event/Marketing Planner and Project Manager 2. Exhibition and Conference Sales Representative / Exhibitor Recruiter 3. Exhibition Designer 4. Venue Operations and Event Executive 5. Wedding and Ceremony Planner 6. Public Relations and Brand Event Marketer 7. Performance and Concert Production / Execution Staff 8. Tourism and Incentive Travel Operator 9. MICE Technology and Digital Content Creator (Photography, Videography, Social Media Content)
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> 1. In the first academic year, a total of 8 credits of Chinese language courses are planned for both the fall and spring semesters. Classes are scheduled twice a week, with 8 teaching hours per week. 2. The Chinese language courses include: Chinese Reading (I), Chinese Reading (II), Chinese Conversation (I), Chinese Conversation (II), Chinese Audio-Visual (I), Chinese Audio-Visual (II), Chinese Writing (I), and Chinese Writing (II). Each course carries 2 credits with 2 teaching hours. The course content and progress will be adjusted according to the students' proficiency level and learning condition to provide suitable Chinese language learning. 3. The Chinese Language Teaching Section of the Language Teaching Center will also arrange a Chinese proficiency placement test to help teachers and students monitor learning progress.

Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> 1. Chinese Reading (I) 2. Chinese Reading (II) 3. Chinese Conversation (I) 4. Chinese Conversation (II) 5. Chinese Audio-Visual (I) 6. Chinese Audio-Visual (II) 7. Chinese Writing (I) 8. Chinese Writing (II) 9. Physical Education 10. Academic Ethics 11. Culture and Life 12. Diverse Artistic Expressions	<u>Professional Courses</u> Required 1. Management 2. English for Meeting & Exhibition 3. Introduction of Meeting, Incentive, Convention & Exhibition 4. Event Planning 5. Exhibition Planning and Design 6. Marketing 7. Convention Management 8. Work Attitude and Ethics 9. Practice of MICE Industry 10. Marketing Management of Exhibition 11. Project Management 12. Hospitality Quality Management 13. Human Resource Management 14. Electronic Commerce and Internet Marketing 15. Sustainable Development Trends in the MICE Industry Elective 1. International Culture & Etiquette 2. Hospitality Aesthetics 3. Multimedia Design 4. F & B Design and Planning for Events 5. Wedding Planning & Banquet Management 6. Event Hosting and Reception 7. Merchandise Display and Explanation 8. Festival and Special Event Management 9. Market Survey & Big Data Analysis 10. Media and Public Relations 11. Presentation and Communication Skills 12. Incentive Travel & Tour Planning 13. Cruise Tourism 14. Exhibition technology application 15. Brand Management 16. Themed Event Planning and Management 17. Practice on Social Media Management	<u>Internship and practical Courses</u> Required 1. MICE Practicum (I) 2. MICE Practicum (II) 3. MICE Practicum (III) Elective 1. MICE Practicum (IV) 2. MICE Practicum (V) 3. MICE Practicum (VI)

		18. Innovation and Entrepreneurship management 19. Crisis Management and Risk Management 20. Marketing Practices in the Cultural and Creative Industries	
Internship	<ol style="list-style-type: none"> Off-campus internships are conducted from second years to third years (fall semester), with approximately 4 internship days per week. The maximum internship hours are up to 24 hours per week. Internship allowance and benefits: <ul style="list-style-type: none"> ■ Allowance : The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hourly. The minimum wage in 2025 is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. ■ Benefits : Interns are provided with Labor Insurance, National Health Insurance, 8-9 days off per month, and all legally mandated holidays. Employee meals are also included. Additionally, depending on the company, interns may receive a variety of other benefits, such as birthday and holiday bonuses, year-end parties, free health checks, employee discounts, and company trips. Institution: Howard Plaza Hotel Kaohsiung, TKS FULL HOUSE, Park Lees Hotel, Lees Enterprise Co., Ltd. - Park Lees Hotel Branch, Lees Enterprise Co., Ltd., Grand Hi-Lai Hotel Kaohsiung, Han-Hsien International Hotel, Kaohsiung Business Hotel, E-Da Royal Hotel Corporation(Marriott) 		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ol style="list-style-type: none"> Students who perform exceptionally well during their internship will be considered for a full-time position upon graduation. Our department partners with MICE companies, professional associations, event marketing firms, exhibition design companies, and tourism-related businesses to provide a wide range of job opportunities. We regularly invite industry experts to give lectures and arrange company visits to enhance students' understanding of the industry and their practical experience. The university's Career Development Center organizes job fairs and offers services like resume reviews and mock interviews to comprehensively boost students' workplace competitiveness. Each student is assigned a dedicated internship supervisor to ensure they receive qualified and professional guidance. 		
Further Education After Graduation	<ol style="list-style-type: none"> Graduates of this program are eligible to apply for master's programs in relevant fields such as Leisure and Tourism, Marketing and Management, and Design. Examples of programs our graduates may apply to include: <ol style="list-style-type: none"> (1) Graduate Institute of Design, National Yunlin University of Science and Technology (2) Department of Cultural and Creative Industries, National Pingtung University (3) Department of Marketing and Tourism Management, National Chiayi University (4) Master's Program in Information and Learning Technology , National University of Tainan 		

2. Students of this program can apply for dual degree programs offered by the school and overseas partner universities or continue their studies at partner universities after graduation in accordance with regulations.

Country	Partner university offered dual degree program
United Kingdom	Dual Degree Program : Middlesex University
South Korea	Exchange School : Sungshin Women's University , Hansae University , Sejong University , Hansao University , Induk University, Seojeong University
Malaysia	Exchange School : University Tunku Abdul Rahman
Vietnam	Exchange School : Hong Bong International University
United States	Exchange School : Pittsburg State University
Canada	Exchange School : Vancouver International College , Sprott Shaw College , City University in Canada
Spain	Exchange School : EUHT StPOL University
New Zealand	Exchange School : YOOBEE College , New Zealand Management Academies
Australia	Exchange School : ICHM International College of Hotel Management

**Scholarships
and Financial
Aids**

- The OCAC provides the following grants and subsidies:
 - The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000)
 - Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - Emergency Aid: Provided on a case-by-case basis.
- Scholarship and subsidies provided by the University:**
 - After students have been admitted, our office will provide them with the scholarship guidelines mentioned in ' Shu-Te University International Student Scholarship Implementation Guidelines,' specifically those outlined in sections six and eight. The rules and regulations regarding scholarships and bursaries for this particular class will be announced upon approval from the principal.

Semester	Amount (New Taiwan Dollars)	Quota	Eligibility	Notes (Schedule, Target, Condi-
----------	--------------------------------------	-------	-------------	------------------------------------------

					tions, etc.)
	The first semester of first year	Tuition fee wavier 50%		Apply to study in the "Four-Year Industry-Academic Cooperation Bachelor Degree Overseas Youth Vocational Training Program (OYVTP)" in the Department of MICE Marketing and Event Management.	
	From the second semester	Tuition fee waiver 50%	Issued to those who meet the application requirements	<ol style="list-style-type: none"> 1. Students who are transferring during the current semester are eligible for an exemption from the registration process for the previous semester, as well as the requirement of completing 36 hours of on-campus service 2. Applicants must have a conduct score of 85 points (inclusive) or above in the previous semester. 3. Those with an average academic score of 85 points and above rank in the top 50% of the class. 	Deferred Graduates Not Applicable

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	0 (Deduct school subsidies)	8,379	6,478	11,000 (Excluding air conditioning, internet fees, and security deposits. Summer and winter break fees are calculated separately.)	25,857
1 st year Second semester (The amount after deducting OCAC grant)	18,054	8,379	10,834	11,000 (Excluding air conditioning, internet fees, and security deposits. Summer and winter break fees are calculated separately.)	48,267
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	18,054	8,379	9,834	11,000 (Excluding air conditioning, internet fees, and security deposits. Summer and winter break fees are calculated separately.)	47,267
3 rd to 4 th year (Amount per semester)	38,054	8,379	9,834	11,000 (Excluding air conditioning, internet fees, and security deposits. Summer and winter break fees are calculated separately.)	67,267

*Note:

1. The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees
2. Other fees:
 - Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month. Students who have proof of economic hardship (or financial difficulty document) only pay 50 % of the insurance premiums.
 - Books fees : TWD 2,000 (subject to actual charges)
 - Teaching materials fees : TWD 2,000 (subject to actual charges)
 - Computer and internet communication usage fee(Applicable for the first and second semesters only) : TWD 1,000 per semester
 - Group insurance : TWD 878 per semester
3. Accommodation fee:
 - (1) During semester:
 - TWD 11,000 for 5-6 Person Room.
 - Air conditioning fees: Utility charges are based on usage. Payment methods and fee calculations are based on the announcement by the Office of General Affairs.
 - Dormitory internet: TWD 300 per semester
 - Deposit: TWD 3,500

The Deposit for students who move out, the deposit will be refunded without

	<p>interest in the semester following the end of the academic year, provided there is no damage to dormitory property and no violation of the housing contract. If a student continues to live in the dorm, the deposit will not be refunded until they check out.</p> <p>(2) During winter and summer vacations:</p> <ul style="list-style-type: none"> ● TWD 900 per week for 5-6 person room. ● Air conditioning fees: Utility charges are based on usage. Payment methods and fee calculations are based on the announcement by the Office of General Affairs. ● Dormitory internet: Based on usage. The payment and fee calculation methods will follow the official announcement from the Computer Center. ● Deposit: TWD 500 The Deposit will be refunded without interest in the next semester to students who move out, provided there is no damage to dormitory property or violation of the housing contract. <p>3. **Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Lunghwa University of Science and Technology		
Program	Department of Tourism and Leisure		
Program Description	The curriculum planning and development of this department is based on the core of guided tours and explanations and is interwoven with the two modules of leisure transportation and catering services. The curriculum is based on “foreign language”, “tourism and leisure” as the content, “digital technology” as the method, and through “project production” and “enterprise internship”. The program will strengthen the interaction with the tourism and leisure industry, cultivate high-quality international tourism and leisure talents, and provide tourism services of international standards.		
Graduate Career Development	Tourism business personnel, leisure industry personnel, baristas, sommeliers, bartenders, catering managers, beverage research and development personnel		
Mandarin courses (online or on-campus courses)	The school has set up a Chinese Language Center, which plans 4 credits of elementary Chinese courses and 1 credit of elementary Chinese conversation courses in the first and second semesters and adds Chinese language proficiency courses to meet the needs of overseas youth technical training students for Chinese language reinforcement teaching. Mandarin courses will be delivered according to the student's level and will provide content that is suitable for the student's learning. Our Chinese Language Centre provides consultation hours for Chinese language teachers and provides local students with academic and academic partners to help them adapt to their studies and life.

**Four-Year Industry-Academia Collaboration
Bachelor Degree Overseas Youth Vocational Training Program
(OYVTP)**

Admission Prospectus for the 2026 Academic Year

School	Lunghwa University of Science and Technology		
Program	Department of Computer Information and Network Engineering		
Program Description	<p>This program focuses on the development of computer information engineering technology and network technology, emphasizing advancement in professional academic fields and system integration. It aims to cultivate students with strong professional expertise and independent research abilities, preparing graduates to become outstanding information and network engineers. To align with the nation's overall development in information technology and to address the broad scope of networking knowledge, the Department of Information and Network Engineering offers a comprehensive curriculum in computer science and communication network technologies. Each year, the department invests heavily in acquiring new network and computer-related equipment, providing students with well-equipped laboratories and facilities. These resources allow students to be trained in programming, multimedia, internet technologies, and various network engineering practices relevant to enterprise operations. In addition, the department regularly invites industry professionals to co-teach courses, sharing practical experiences, and actively promotes student internships with enterprises. These efforts are designed to strengthen students' workplace skills and to develop their professional competencies in planning, constructing, managing, and designing information network systems.</p>		
Graduate Career Development	IT Support Engineer, System Administrator, Network Engineer, Network Administrator, Information Security Specialist, Cloud Engineer, DevOps Engineer, Data Center Engineer, IoT Engineer, IT Project Manager,
